Duquesne University Philosophical Studies 31 Sense And Significance:

Paul Ricoeur Frans D. Vansina, 2000 Already more than sixty years Paul Ricoeur enriches the international philosophical patrimony with an astonishing number of highly technical books and enlightening reflections on actual problems and situations To serve the community of researchers in philosophy I have already published two systematic bibliographies of and on Ricoeur in 1985 and 1995 Encouraged by friends and colleagues I present now another updated bibliography as exhaustive as possible

The Philosophy of Paul Ricoeur Lewis Edwin Hahn, 1995 Paul Ricoeur widely regarded as the foremost living phenomenologist has helped to make the term hermeneutics a household word His writings cover a wide range of topics from the history of philosophy literary criticism and aesthetics to metaphysics ethics religion semiotics linguistic structuralism and psychoanalysis Ricoeur's most important works including *Freedom and Nature* *Freud and Philosophy* *The Conflict of Interpretations* *Time and Narrative* *The Symbolism of Evil* and *Oneself as Another* have attracted enthusiastic readers from many disciplines and from every major cultural milieu across the surface of the globe *Studies in the Philosophy of Paul Ricoeur* Charles E. Reagan, 1979 [The Cumulative Book Index](#), 1997 A world list of books in the English language *Maurice Merleau-Ponty and His Critics* François Lapointe, Claire Lapointe, 1976

Monographic Series Library of Congress, *Library of Congress Catalogs* Library of Congress, 1976 **International Relations Theory and Philosophy** Cerwyn Moore, Chris Farrands, 2010-01-04 Discusses the contribution of philosophers and thinkers whose ideas have recently begun to permeate international relations theory and seeks to integrate diverse ideas broadly concerned with the interpretive theory and methods of international relations [Journal of Phenomenological Psychology](#), 1972

Subject Catalog Library of Congress, 1981 *Library of Congress Catalog* Library of Congress, 1974 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 **Merleau-Ponty** Rosalyn Diprose, Jack Reynolds, 2014-12-05 Having initially not had the attention of Sartre or Heidegger Merleau Ponty's work is arguably now more widely influential than either of his two contemporaries Merleau Ponty Key Concepts presents an accessible guide to the core ideas which structure Merleau Ponty's thinking as well as to his influences and the value of his ideas to a wide range of disciplines The first section of the book presents the context of Merleau Ponty's thinking the major debates of his time particularly existentialism phenomenology the history of philosophy and the philosophy of history and society The second section outlines his major contributions and conceptual innovations The final section focuses upon how his work has been taken up in other fields besides philosophy notably in sociology cognitive science health studies feminism and race theory

Interpreting Primo Levi Arthur Chapman, Minna Vuohelainen, 2016-04-29 The legacy of antifascist partisan Auschwitz survivor and author Primo Levi continues to drive exciting interdisciplinary scholarship The contributions to this intellectually rich tightly organized volume from many of the world's foremost Levi scholars show a remarkable breadth

across fields as varied as ethics memory and media studies The Body and Shame Luna Dolezal, 2015-03-31 The Body and Shame Phenomenology Feminism and the Socially Shaped Body investigates the concept of body shame and explores its significance when considering philosophical accounts of embodied subjectivity Body shame only finds its full articulation in the presence actual or imagined of others within a rule and norm governed milieu As such it bridges our personal individual and embodied experience with the social cultural and political world that contains us Luna Dolezal argues that understanding body shame can shed light on how the social is embodied that is how the body experienced in its phenomenological primacy by the subject becomes a social and cultural artifact shaped by external forces and demands The Body and Shame introduces leading twentieth century phenomenological and sociological accounts of embodied subjectivity through the work of Edmund Husserl Maurice Merleau Ponty Jean Paul Sartre Michel Foucault and Norbert Elias Dolezal examines the embodied social and political features of body shame contending that body shame is both a necessary and constitutive part of embodied subjectivity while simultaneously a potential site of oppression and marginalization Exploring the cultural politics of shame the final chapters of this work explore the phenomenology of self presentation and a feminist analysis of shame and gender with a critical focus on the practice of cosmetic surgery a site where the body is literally shaped by shame The Body and Shame will be of great interest to scholars and students in a wide variety of fields including philosophy phenomenology feminist theory women s studies social theory cultural studies psychology sociology and medical humanities
