Durkheim And The Study Of Suicide

Neil Thompson, Gerry R. Cox

Durkheim And The Study Of Suicide:

Suicide, a Study in Sociology Émile Durkheim, 1966 **Suicide** Emile Durkheim, 2005-08-04 Originally published in 1897 this is Durkheim's pioneering attempt to offer a sociological explanation for a phenomenon regarded until then as exclusively psychological and individualistic **On Suicide** Emile Durkheim, 2006-09-28 Emile Durkheim's *On Suicide* 1897 was a groundbreaking book in the field of sociology. Traditionally, suicide was thought to be a matter of purely individual despair, but Durkheim recognized that the phenomenon had a social dimension. He believed that if anything can explain how individuals relate to society, then it is suicide. Why does it happen? What goes wrong? Why do certain social, religious, or racial groups have higher incidences of suicide than others? As Durkheim explored these questions, he became convinced that abnormally high or low levels of social integration lead to an increased likelihood of suicide. *On Suicide* was the result of his extensive research. Divided into three parts: individual reasons for suicide, social forms of suicide, and the relation of suicide to society as a whole, Durkheim's revelations have fascinated, challenged, and informed readers for over a century. **Durkheim and the Study of Suicide** Steve Taylor, 1982 Durkheim's Suicide W.S.F. Pickering, Geoffrey Walford, 2002-09-26 Durkheim's book on suicide, first published in 1897, is widely regarded as a classic text and is essential reading for any student of Durkheim's thought and sociological method. This book examines the continuing importance of Durkheim's methodology. The wide-ranging chapters cover such issues as the use of statistics, explanation of suicide, anomie, and religion, and the morality of suicide. It will be of vital interest to any serious scholar of Durkheim's thought and to the sociologist looking for a fresh methodological perspective. **Suicide** John A. Spaulding, George Simpson, Emile Durkheim, 2010-05-11 A classic book about the phenomenon of suicide and its social causes, written by one of the world's most influential sociologists, Emile Durkheim's *Suicide* addresses the phenomenon of suicide and its social causes. Written by one of the world's most influential sociologists, this classic argues that suicide primarily results from a lack of integration of the individual into society. *Suicide* provides readers with an understanding of the impetus for suicide and its psychological impact on the victim, family, and society.

Social Meanings of Suicide Jack D. Douglas, 2015-03-08 This book presents a review and criticism of all sociological literature on suicide from Emile Durkheim's influential *Suicide* 1897 to contemporary writings by sociologists who have patterned their own work on Durkheim's. Douglas points out fundamental weaknesses in the structural-functional study of suicide and offers an alternative theoretical approach. He demonstrates the unreliability of official statistics on suicide and contends that Durkheim's explanations of suicide rates in terms of abstract social meanings are founded on an inadequate and misleading statistical base. The study of suicidal actions, Douglas argues, requires an examination of the individual's own construction of his actions. He analyzes revenge, escape, and sympathy motives using diaries, notes, and observers' reports; he shows how the social meanings of actual cases should be studied. An Analysis of Emile Durkheim's On Suicide Robert Easthope, 2017-07-12 Emile Durkheim's 1897 *On Suicide* is widely recognized as one of the foundational classic texts of sociology It is also one that shows the degree to which strong interpretative skills can often provide the bedrock for high level analysis Durkheim's aim was to analyse the nature of suicide in the context of society itself examining it not just as an individual decision but one in which different social factors played important roles In order to do this it was vital that he both define and classify suicide into subtypes kinds of suicide with different causal factors at play From his research Durkheim identified four broad types of suicide egoistic from a sense of not belonging altruistic from a sense that group goals far outweigh individual well being anomic from lack of moral or social direction and fatalistic in response to excessive discipline or oppression These definitions opened the way for Durkheim to pursue a close social analysis examining how each type related to different social contexts While his study is in certain ways dated it remains classic precisely because it helped define the methodology of sociology itself in which interpretative skills remain central
