Durkheim And Women:

Durkheim and Women Jennifer M. Lehmann,1994-01-01 Durkheim and Women is the first book length work to present a feminist analysis of the theoretical writings of Emile Durkheim Through a close textual reading of Durkheim s widely scattered statements about women Jennifer M Lehmann reconstructs a coherent Durkheimian theory of women She places Durkheim squarely in the swirling modernist controversies of his time and the equally bedeviling postmodernist controversies of ours *What Now, Emile?* Janet Bogdan,1976 *Natural Women, Cultured Men* R.A. Sydie,2011-11-01 This book examines the work of the classical social theorists Durkheim Weber Marx Engels and Freud from a feminist perspective The focus is on the theoretical approach adopted by each theorist in his examination of the nature of human nature and more specifically the nature of sex relationships In general the dichotomized hierarchical view of sex relationships common to each of the theorists forms the framework for the discussions and critiques More recent critical commentaries by feminists are included as well as a brief exegesis on sociobiology as representative of many of the views found in the work of the five sociological fathers The concluding remarks consider suggestions for the direction of a feminist social theory

EBOOK: Engendering the Social N/A Marshall, Anne Witz, 2004-03-16 This edited volume focuses on the problematic engendering of classical and contemporary sociological theory addressing questions such as How were the foundations of sociological theory shaped by an implicit masculinity Did classical sociology simply reflect or actively construct theories of sexual difference How were alternative accounts of the social suppressed in sociology s founding moments Feminist interventions in sociology are still seen as marginal to sociological theorizing This collection challenges this truncated vision of sociological theory In part one contributors interrogate the classical canon exposing the masculinist assumptions that saturate the conceptual scaffolding of sociology In part two contributors consider the long standing and problematic relationship between sociology and feminism retrieving voices marginalized within or excluded from canonical constructions of sociological theory In part three contributors engage with key contemporary debates explicitly engendering accounts of the social Engendering the Social is unique in that it not only critically interrogates sociological theory from a feminist perspective but also embarks on a politics of reconstruction working creatively at the interface of feminist and sociological theory to induce a more adequate conceptualisation of the social This is a key text for undergraduate and postgraduate students in sociology social theory and feminist theory

Modern Women, Modern Work Francesca Sawaya, 2013-04-19 Focusing on literary authors social reformers journalists and anthropologists Francesca Sawaya demonstrates how women intellectuals in early twentieth century America combined and criticized ideas from both the Victorian cult of domesticity and the modern culture of professionalism to shape new kinds of writing and new kinds of work for themselves Sawaya challenges our long standing histories of modern professional work by elucidating the multiple ways domestic discourse framed professional culture Modernist views of professionalism typically told a racialized story of a historical break between the primitive feminine and domestic work of the Victorian past and the modern masculine professional expertise of the present Modern Women Modern Work historicizes this discourse about the primitive labor of women and racial others and demonstrates how it has been adopted uncritically in contemporary accounts of professionalism

modernism and modernity Seeking to recuperate black and white women s contestations of the modern professions Sawaya pairs selected novels with a broad range of nonfiction writings to show how differing narratives about the transition to modernity authorized women s professionalism in a variety of fields Among the figures considered are Jane Addams Ruth Benedict Willa Cather Pauline Hopkins Zora Neale Hurston Sarah Orne Jewett Josephine St Pierre Ruffin and Ida Tarbell In mapping out the constraints women faced in their writings and their work and in tracing the slippery compromises they embraced and the brilliant adaptations they made *Modern Women Modern Work* boldly reenvisions the history of modern professionalism in the United States
