Dutch Pluralism A Model In Tolerance For Developing Democracies:

Dutch Pluralism Robert C. Tash,1991 The book investigates Dutch pluralism in theory and practice focusing especially on how a variety of Dutch religious racial and ethnic groups keep their subcultural distinctiveness at the same time interacting on an equal basis with the larger Dutch society It examines the historical basis of this developing pluralism and locates Dutch attitudes of considerable tolerance and acceptance of minorities and minority opinion in the major institutions religious political economic educational and social Comparisons and contrasts with other Western pluralist democracies are made The book is particularly timely in presenting a comprehensive description and analysis of a consociational pluralist model at a time when many East European and Third World societies are searching for more stable democratic pluralist alternatives

Navigating Reformed Identity in the Rural Dutch Republic Kyle Dieleman,2025-10-01 Through an examination of Dutch Reformed church records and theological texts Kyle Dieleman explores the local dynamics of religious life in the early modern Dutch Republic The book argues that within the religiously plural setting of the Dutch Republic church officials used a variety of means to establish a Reformed identity in their communities As such the book explores the topics of church orders elders and deacons intra confessional and inter confessional conflicts and Sabbath observance as local means by which small rural communities negotiated and experienced their religious lives In exploring rural Dutch Reformed congregations the book examines the complicated relationships between theology and practice and lay and elite religion and highlights challenges rural churches faced As they faced these issues Dieleman demonstrates that local congregations exercised agency within their lived religious experiences as they sought unique ways to navigate their own Reformed identity within their small rural communities

In Defence of Religious Schools and Colleges Elmer John Thiessen,2001-07-19 In placing his argument within the context of liberal democratic values Thiessen gives concrete examples of objections to religious schools and offers practical suggestions that follow from the philosophical treatment of the problem In Defence of Religious Schools and Colleges bridges the gap between philosophical argument and educational practice It will be of interest not only to philosophers and educational theorists but also to practitioners in education Academics policy makers political theorists lay people teachers administrators and parents those who object to religious schools and colleges and those who find themselves trying to answer the objections will benefit from reading this book

Towards an Ethics of Community James Olthuis,2006-01-01 How do we deal with difference personally interpersonally nationally Can we weave a cohesive social fabric in a religiously plural society without suppressing differences This collection of significant essays suggests that to truly honour differences in matters of faith and religion we must publicly exercise and celebrate them The secular sacred public private divisions long considered sacred in the West need to be dismantled if Canada or any nation state is to develop a genuine mosaic that embraces fundamental differences instead of a melting pot that marginalizes An ethics of difference starts with a recognition of difference not as deviance or deficit that threatens but as otherness to

connect with cherish and celebrate The book begins with the suggestion that our inability to come to terms with social plurality is not fundamentally the fault of religious differences and that a public private split inadequately deals with matters of basic difference It then explores how encouraging people to live out their respective faiths may open new possibilities for respectful honourable and just negotiations of contemporary dilemmas arising out of the multicultural fabric of Canadian life Towards an Ethics of Community introduces readers to some of the most challenging and divisive dilemmas we face in this increasingly pluralistic postmodern world issues such as family and domestic violence Aboriginal rights homosexuality and public policy and female genital mutilation This is a book truly global in scope and significance **Liberty and Concord in the United Provinces** Joris Van Eijnatten,2003 This study based on a large number of sources and treating a broad variety of topics offers an outline of developments in the early modern intellectual debate on religious liberty religious toleration and religious concord in the eighteenth century Netherlands **The Challenges of Pluriculturalism in Europe** Susanne Baier-Allen,Ljubomir Čučić,2000 **Citizenship in Historical Perspective** Steven G. Ellis,Guðmundur Hálfðanarson,Ann Katherine Isaacs,2006 The volume looks at the past and the present of European citizenship and by implication its future The aim of the investigation is theoretical and practical It is based on the conviction that knowledge is essential for decision making political or otherwise and that more knowledge is needed to make decisions about European citizenship Attitudes towards such vital political and ethical issues as citizenship are commonly based on general impressions and opinions rather than on a critically founded understanding As historians and specialists in other social and human sciences we believe it is our duty to contribute to the common patrimony of understanding and insight so that informed citizens can make informed decisions One part of the book is called Work gender and society it contains the articles from Waaldijk Laikos and Hageman

In the Arms of Others Peter G. Filene,1999-08-20 An exploration of the lives and feelings of people who have struggled with the predicament of modern dying *Ethnicity and Class* Gopa Sabharwal,2006 Belgaum in India s southern state of Karnataka is a city that has consistently found itself in the news since the 1950s This media interest is due to issues arising from its ethnic character The city is home to multiple linguistic groups with Kannada and Marathi both contending for linguistic and consequently social and political prominence This fractious backdrop forms the basis of the present book Ethnicity and Class interrogates issues of ethnic identity in terms of their social location and historicity Furthermore it seeks to demonstrate the significance of class in analysing the dynamics of social life and its construction in India What emerges in consequence is the notion that a comprehensive understanding of Indian society needs to move beyond the narrow confines of single indicators like caste religion or language to more inclusive concepts **BOOK JACKET** **Multikulturelle Gesellschaft in den Niederlanden** Ingo Firley,1997-06-06 **Consensual Model of Democracy: 1969-1986** ,2007
