**Governing the White House** Charles Eliot Walcott, Karen Marie Hult, 1995 Charles Walcott and Karen Hult maintain that the organization of the White House influences presidential performance much more than commonly thought and that organization theory is an essential tool for understanding that influence Their book offers the first systematic application of organizational governance theory to the structures and operations of the White House Office Using organizational theory to analyze what at times has been a rather ad hoc and disorganized office might seem quixotic After all the White House Office exists within a turbulent political environment that encourages expedient decision making And every four to eight years it must be reinvented by presidents who have their own theories and preferences about how to organize a staff to serve their policy needs But Walcott and Hult argue that White House staffs are not simply puppets of presidential preference and style Yes staff structures evolve primarily from presidents strategic responses to external demands But those structures in turn significantly influence how the executive branch perceives and responds to further demands The first part of their book lays out the theoretical argument The second examines White House outreach congressional liaison press relations personnel selection executive branch oversight and interest group and intergovernmental liaison The third focuses on White House handling of policy development and implementation The fourth analyzes staff structures that facilitate the operation of the presidency itself

presidential writing and scheduling staff management and cabinet coordination The book concludes by identifying general patterns in the emergency nature and stability of governance structures in the White House Original and instructive *Governing the White House* provides a much needed primer on the inner workings of the White House staff and will be an essential volume for anyone studying the presidency     **Up the Politicians...** John Henry, 2011-08-19 If a politician tells me its daytime Im going to walk outside and check John Henry is an average American He loves his family Hes not rich or politically connected Hes kept his nose clean served in the military votes and plays by the rules He believes in this country and idolizes American heroes He loves the American culture and freedom He loves and respects those who have made the sacrifices for his freedoms He believes in God and wishes the best for his fellow man He respects the rights and privacy of all He wonders what has happened to his country and the leaders we have previously elected He wonders what has happened to the qualities of courtesy integrity perseverance self control and indomitable spirit He wonders why our political leaders have failed us He wonders why the government has declared war on him For the first time hes decided to fight back and voice his opinions about many things concerning the American politician and federal government Hes mad as hell and hes not going to take it any longer     **Dwight D. Eisenhower** Lydia J. Gole, 1990     The Pulse of Politics James David Barber, 2017-09-29 Every four years journalists propel a presidential campaign into the national consciousness New candidates and issues become features of the political landscape while familiar rituals are reshaped by the unpredictability of personalities and events Underlying this apparent process of change however is a recurrent cycle of political themes and social attitudes a pulse of politics that locks the process of choosing a president into a predictable pattern In this bold and brilliant examination of modern presidential politics James David Barber reveals the dynamics of this cycle and shows how the pattern of drift and reaction may be broken in this most critical of political choices Barber probes beneath the surface of campaigns to detect a steady rhythm of major political motifs The theory he advances in colorful narrative chapters is that three dominant themes conflict conscience conciliation recur in foreseeable twelve year cycles A combative campaign Truman vs Dewey in 1948 is followed four years later by a moral crusade Eisenhower vs Stevenson in 1952 which in turn is succeeded by a contest to unify the nation the Eisenhower Stevenson rematch in 1956 The pattern is then renewed the fierce combat between Kennedy and Nixon in 1960 was followed in 1964 by the contest of principle between Johnson and Goldwater In 1968 Richard Nixon defeated Hubert Humphrey by promising to bring the nation together Monitoring shifting national political moods is a new elite the journalists Barber makes the case that the party system increasingly clumsy and inflexible can no longer pick up the beat of politics Instead it is through newspapers magazines and television that the main themes of a campaign are sounded created and destroyed This new edition of *The Pulse of Politics* provides a timely guide to the themes of the 1992 presidential campaign and to future elections It will be of special interest to political scientists historians media analysts and journalists     *Adlai Stevenson and American Politics* Jeff Broadwater, 1994 A clear and engaging

Buell, Lee Sigelman,2008 Ask most Americans and they ll tell you that presidential campaigns get dirtier and more negative with every election This text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but hasn t increased      *The American Presidency* ABC-Clio Information Services,1984      *A London Bibliography of the Social Sciences* ,1931 Vols 1 4 include material to June 1 1929      **United States Political Science Documents** ,1988
