Seminar paper from the year 2021 in the subject Leadership and Human Resources. Employee Motivation, grade 1.0. University of Economics Prague, Faculty of Business Administration, course Management for doctoral students, language English, abstract. This paper analyzes the impact of transformational leadership on employee well-being in remote work environments. As several studies suggest, there is a positive relationship between transformational leadership and employee well-being, but it is rather complex as it is influenced by specific mediating and moderating factors. Since the ongoing COVID-19 crisis forced many teams into remote working conditions, leadership was predominantly performed virtually. This leads to adapted requirements for the promotion of employee well-being. This paper seeks to identify those adjustments. Thus, a conceptual model was constructed to illustrate the relationship of transformational leadership and employee well-being, which was then applied to remote work environments to propose relevant adaptations. *Organizational Behavior and Management* John Ivancevich, Robert Konopaske, Michael Matteson, 2007-02. To accomplish this, OBM 8e achieves the difficult goal of preserving its key strengths, i.e., thorough, current, good balance of research and practice, while streamlining its content by removing over

100 pages of readings that are now available on the Web This reduction in page length makes the book more affordable teachable and efficient for students Preserving scholarship while streamlining captures the spirit of what I K M used as the guiding principle while writing OBM 8e **The Journal for Quality and Participation** ,2004 **Working in Groups** Dianna R.
