**The Qualitative Dissertation in Education** Karri A. Holley, Michael S. Harris, 2019-04-30 The Qualitative Dissertation in Education focuses on the experiences of students pursuing a doctorate in education and writing a qualitative dissertation. The literature on qualitative research has grown substantially over the past 25 years but methods books often fail to consider the unique situations and resources available to students pursuing a professional doctorate. This book examines the entirety of the dissertation experience walking readers through the process with examples and guidelines. The structure of the book outlines each chapter of the dissertation as well as the necessary steps to start and complete the dissertation such as working with a faculty chair and committee, developing a peer support group and organizing literature. Not only does the book cover each stage of the dissertation process, it also provides practical guidance on topics such as productivity with exercises and resources to help students overcome obstacles and make progress in their writing. The Qualitative Dissertation in Education provides a foundation to understand both the basics of qualitative research and the expectations of the EdD dissertation.

*Playing the Academic Game* Bryn Williams-Jones, 2025-02-04 Playing the Academic Game is the culmination of two years of weekly posts on the BrynStorming blog by Bryn Williams Jones, professor of bioethics in the School of Public Health at the University of Montreal. As an ethicist long interested by questions of justice, an important motivator for this project has been Williams Jones' need to respond to the injustices encountered in academia. Many students and researchers fail in their studies or career progression not because they don't have the intellectual abilities or drive but simply because they don't know what's expected of them or how to best present themselves in a competitive environment. That is, they don't know the rules of the game, and this isn't fair because the rules are rarely made explicit. In this book, which is organized into 5 major sections: The Academic Career Path, Professional Identity, University Life, Productivity and Creativity, and Multiple Responsibilities and Mental Health, Williams Jones shares 30 years of experience in academia to make explicit the often implicit norms and rules of academic life so that all who wish to can fairly play the academic game.

*How to Win Friends and Manage Remotely* McKenna Sweazey, 2022 A modern approach based on classic management styles for working and managing people remotely. How do you manage a poor performer over Zoom? How do you casually deliver positive feedback via Slack? What's the most professional use of a gif? Management was hard enough pre-pandemic, and now the difficulty in getting things done has dramatically increased. In face-to-face interactions, humans have thousands of indicators to tell them what the other party is thinking and how they are reacting. Resorting to purely digital communication obliterates these clues, stopping us from reading the subtle body language we've evolved to use in all interactions. To become better leaders, kinder managers, and more effective cogs in the corporate machine, *How to Win Friends and Manage Remotely* shares real-life examples, scientifically proven ideas, and distillations of tried-and-true business tenets, all mapped to a new virtual first office. This book is a handbook, a step-by-step guide to common interactions in the workplace using eight classic management

examples from digitizing your onboarding journey to helping new recruits to delivering useful feedback over video conference Combining academic research and personal experiences across various companies roles and countries this is a roadmap to get readers through the WFH work from home quagmire and help us all be more cognizant of others perspectives in this brave new world How to Win Friends and Manage Remotely shows why expressing digital empathy is the most important factor in managing and working with others Even as companies began going back to normal it wasn't the normal that anyone knew pre COVID 19 Two things are certain with this shift First we will never go back to the way things were Second we all must learn to live in a virtual workplace If we are managers that means we also need to know how to communicate with motivate and coach virtual teams In the words of Dale Carnegie how do you win friends and influence people in a virtual office
