protection issues particularly for tourists and to come up with legislative proposals to improve consumer protection in China. By examining current legislative provisions, case studies and judicial practices, the book provides a comprehensive understanding of consumer protection in Chinese private international law and potential legal reforms to enhance consumers' access to justice in cross-border litigation. The increasing globalization and mobility of consumers, especially tourists, call for robust legal frameworks to protect their rights across borders. While China does endeavor to protect consumers, the current regulations in Chinese private international law remain insufficient. Consumers, including tourist consumers, still encounter major obstacles in international civil litigation. This book highlights the strengths and weaknesses of China's legal system, offering insights for potential legal reforms to enhance consumer protection there. This book is intended for academics, legal practitioners, policymakers, and students with an interest in private international law, consumer protection, and comparative law. It also offers a valuable resource for international organizations involved in consumer rights and tourism. By providing a focused analysis of tourist-related consumer contracts in China, it fills a critical gap in the existing literature. **Routledge**

Handbook of Chinese Media Ming-Yeh T. Rawnsley, Yiben Ma, Gary D. Rawnsley, 2025-08-19. The new second edition of this successful Handbook explores the growing and evolving field of Chinese media, offering a window through which to observe multi-directional flows of information, culture, and communications within the contexts of globalisation and regionalisation. Bringing together the research of an international and interdisciplinary team, providing expert analysis of the media in China, Hong Kong, Taiwan, and Macau, as well as among other Chinese communities, this new edition highlights how new social, economic, and political forces have emerged to challenge the production and consumption of media outputs. Reveals how the growing prevalence of social media, such as WeChat and TikTok, continues to blur the boundary between online and offline, allowing state institutions to interfere in the lives of their users and civil societies to mobilise and articulate their interests and grievances. Outlines how the development of new communications technologies and their use by political and economic actors, journalists, civil societies, and diaspora communities contribute to the complex, multi-directional flow of information, culture, and communications in the twenty-first century. Contributing to the growing and evolving field of Chinese media studies, this Handbook is an essential and comprehensive reference work for students of all levels and scholars in the fields of Chinese Studies and Media Studies. **DEI and Intersectional Social Identities at Work** Donnalyn Pompper, Tugce Ertem-Eray, 2024-06-13.
