Phillips, 2021-03-30 An in depth look at the intersection of judgment and statistics in baseball Scouting and scoring are considered fundamentally different ways of ascertaining value in baseball Scouting seems to rely on experience and intuition scoring on performance metrics and statistics In Scouting and Scoring Christopher Phillips rejects these simplistic divisions He shows how both scouts and scorers rely on numbers bureaucracy trust and human labor to make sound judgments about the value of baseball players Tracing baseball's story from the nineteenth century to today Phillips explains that the sport was one of the earliest fields to introduce numerical analysis and new methods of data collection were supposed to enable teams to replace scouting with scoring But that's not how things turned out From the invention of official scorers and Statcast to the creation of the Major League Scouting Bureau Scouting and Scoring reveals the inextricable connections between human expertise and data science and offers an entirely fresh understanding of baseball **Diamond Classics** Mike Shannon, 2024-10-11 Each work chosen with exquisite care by an expert is analyzed and summarized Its greatness as baseball literature its place in the genre its peculiarities weaknesses strengths how the critics went for it all are discussed in such a way with quotations that reading or browsing Shannon's book is equivalent to absorbing a rich history of the sport

Meeting,1988 The ancient poets tell us that in the year 776 B C a young cook from Elis won a great footrace in a meadow near the river Alpheus at Olympia The youth Coroebus was crowned with a wreath of wild olive twigs and thus became the first recorded victor in the ancient Olympic Games From this beginning there evolved an alliance of sport and the arts that no culture or civilization since the Greeks has been able to achieve During the summer of 1984 a collection of scholars athletes and artists from various disciplines convened in Coroebus s honor to celebrate the alliance of sport and the arts with the formation of the Sport Literature Association The papers in this volume most of which were presented at the Coroebus Conference are devoted to examining and furthering the understanding of that alliance The Coroebus Conference and particularly the resulting writings compiled in this volume are a long overdue recognition of a neglected relationship This book could well provide the impetus to recapture the alliance from which both sport and the arts benefitted so well in the past Originally published in 1989 *Venezuelan Bust, Baseball Boom* Milton H. Jamail,2008-04 Though Venezuela is sandwiched between two soccer mad countries Brazil and Colombia baseball is its national pastime and passion Yet until the late 1980s few professional teams actively scouted and developed players there This book is about the man who changed all that and brought Venezuela into Major League Baseball in a major way While other teams were looking to the Dominican Republic for new talent Houston Astros scout Andr s Reiner saw an untapped niche in Venezuela Venezuelan Bust Baseball Boom recounts how over the next fifteen years Reiner signed nearly one hundred players nineteen of whom reached the majors The stories of these players among them Bobby Abreu Joh n Santana Melvin Mora Carlos Guill n and Freddy Garc a are interwoven with Reiner s own together creating a fascinating portrait of a curious character in the annals of sports and a richly textured picture of the opening of Venezuela as baseball s new frontier Countless interviews broaden and deepen the

story s insights into how the scouting system works how Reiner worked within it and how his efforts have affected the sport of baseball in Venezuela and the significance of Venezuela in the world of Major League Baseball **Developing a Lifelong Contract in the Sports Marketplace** Greg J.
