Abrahamsson, 2019-03-13 Intended as a basic text on ocean shipping this book provides a basis for understanding how the industry functions and the problems and issues that arise because of its international character Dr Abrahamsson makes no attempt to judge the relative merits of various developments arguments or positions rather he explains concepts and principles **Domestic Transportation** Roy J. Sampson, Martin T. Farris, David L. Shrock, 1985 Domestic Transportation Roy J. Sampson, 1966 Distribution David F. Ross, 2012-12-06 It has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the fabric of historical events It is not that the facts of history have changed No one will dispute that the battle of Waterloo occurred on June 11 1815 or that the allied invasion of Europe began on June 6 1944 What each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation By examining the facts of history from a new perspective today's historians hope to reveal some new truth that will not only illuminate the course of history but also validate contemporary values and societal ideals Although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today's organizational cultural and economic realities Hopefully the result will be a new synthesis where a whole new perspective will break forth exposing new directions and opportunities Transportation Robert C. Lieb, 1985 **Transportation and Warehousing Curriculum Guide** Earl Edward Harris, 1980 *The Publishers' Trade List Annual*, 1902 **Logistics Management** Warren Rose, 1979 **The Logistics and Transportation Review**, 1977 **Books in Print Supplement**, 1994 **Business Information** Van Mayros, D. Michael Werner, 1983 **Modern Managerial Economics** Martin T. Farris, Stephen K. Happel, 1987 **Resource Guide for Transportation Engineering Education**, 1987 This bibliography addresses the need by transportation educators and professionals for information on current resources that are useful references for transportation engineering education and practice It lists books and journals and also indicates the appropriate target audience and topical areas The focus of the references is intended to be more within the domain of civil engineering applications to transportation rather than attempting to cover the entire broad spectrum of transportation related disciplines There are 68 book citations followed by a list of publishers addresses an index by topic and an index by authors Twenty one journals are cited with a list of publishers addresses **Management of Transportation Carriers**
