The Dominant Ideology Thesis Nicholas Abercrombie,Stephen Hill,Bryan S. Turner,1984 **The Dominant Ideology Thesis** Bryan S. Turner,Nicholas Abercrombie,Stephen Hill,2014-09-15 As a radical critique of theoretical sociological orthodoxy The Dominant Ideology Thesis has generated controversy since first publication It has also been widely accepted however as a major critical appraisal of one central theoretical concern within modern Marxism and an important contribution to the current debate about the functions of ideology in social life **Dominant ideology thesis** Nicholas Abercrombie,1984 *Dominant Ideologies (RLE Social Theory)* Bryan S. Turner,Nicholas Abercrombie,Stephen Hill,2014-09-15 In this volume leading international scholars elaborate upon the central issues of the analysis of ideology the nature of dominant ideologies The ways in which ideologies are transmitted their effects on dominant and subordinate social classes in different societies the contrast between individualistic and collectivist belief systems and the diversity of cultural forms that coexist within the capitalist form of economic organization This book is distinctive in its empirical and comparative approach to the study of the economic and cultural basis of social order and in the wide range of societies that it covers Japan Germany and the USA constitute the core of the modern global economy and have widely differing historical roots and cultural traditions Argentina and Australia are white settler societies on the periphery of the capitalist world system and as a result have certain common features that are cut across in turn by social and political developments peculiar to each Britain after a decade of Thatcherism is an interesting test of the efficacy of an ideological project designed to change the cultural values of a population Poland shows the limitations of the imposition of a state socialist ideology and the cultural complexities that result **The Dominant Ideology Thesis** ,1980 As a radical critique of theoretical sociological orthodoxy The Dominant Ideology Thesis has generated controversy since first publication It has also been widely accepted however as a major critical appraisal of one central theoretical concern within modern Marxism and an important contribution to the current debate about the functions of ideology in social life The Furies of Indian Communalism Achin Vanaik,1997 Moving beyond purely theoretical considerations he assesses India s political future the possible obstacles to the development of communalism and the forces that exist on the Left which might be brought into alliance to halt the march of chauvinism **Class** John Scott,1996 Class and status are both foundational themes in the study of sociology John Scott brings together the central theoretical contributions to the debate on class and status as aspects of stratification Using a selection of seminal pieces and commentaries on the classics it raises central issues for example the distinction between class and status which are then examined by leading authorities **The Making of an Alienated Generation** Sai-Wing Leung,2019-07-23 First published in 1997 this volume examines the political apathy of the Hong Kong Chinese with a particular focus on children in secondary schools While most previous studies have been of adults Leung s approach exposes a generation who are politically uninvolved and disenchanted He examines teacher student encounters in a depoliticized

school context and through a curriculum in which explicit political content is absent The study throws light both on Chinese youths and the interaction of older and younger generations and its macroscopic implications are distinctly ominous suggesting trouble ahead for the Hong Kong Special Administrative Region **Frameworks of Power** Stewart R. Clegg,2023-04-05 Frameworks of Power is a coherent and comprehensive account of the different frameworks for understanding power that have been advanced by influential thinkers across the social sciences A true classic in the field the original edition proved hugely influential and a major point of reference for scholars at all levels concerned with power Looking back to the classical literature on power with special emphasis on Machiavelli and Hobbes the book concentrates on the analysis of power from both British and American social and political theorists and from German Critical Theory and French theorists such as Foucault and develops upon its theory and its application The second edition includes a completely new chapter A History of the Present which offers a timely engaging and provocative intervention by analysing three contemporary crises the COVID 19 pandemic Russia s invasion of Ukraine and climate change using the circuits of power framework that was the central concept of the original work As well as being an essential textbook for all students in social science disciplines this wide ranging and innovative analysis will appeal to scholars in sociology politics organization studies and other disciplines **Social Justice and Political Change** James R. Kluegel,David S. Mason,Bernd Wegener,2011-06-24 No detailed description available for Social Justice and Political Change *A Dictionary of Sociology* John Scott,2014 Coverage is extensive and includes terms from the related fields of psychology economics anthropology philosophy and political science Provided by publisher Social Justice and Political Change James R Kluegel David S Mason Bernd Wegener, Political Acquiescence and Beliefs about State Coercion Stephen Samuel Smith,1990 *The Myth of Consumerism* Conrad Lodziak,2002-01-20 Lodziak s delightful tome takes to task the myth of joyful willful consumerism as it s perpetuated in the field of cultural studies Tracing the ideas common to the field Lodziak no academic affiliation is indicated questions the very roots of cultural studies ideology then proposes an alternate view of the phenomenon of shopping within the present capitalist society Distributed by Stylus Publishing Annotation copyrighted by Book News Inc Portland OR *Society Invented from Above* James Daniel Wise,1997 Discourses in Dominance Nicholas Abercrombie,Stephen Hill,Bryan S. Turner,1990 *Radical Philosophy* ,1988 **Knowledge and the Production of Nonknowledge** Mark Featherstone,2002 This volume shows how alien stories represent and articulate issues of otherness in America s post war technocratic society Reading the texts that are constitutive of alien myth the book explains how the political condition of post war America is encoded at the level of popular culture An analysis of America s consumer culture suggests that the consumption of alien myth is comparable with the technical and bureaucratic rationality of the American political order By expanding this examination of the relationship between technology and myth the study shows how during the age of technologocentrism the double strategy constituted by the pursuit of consumption and the objectification of the

alien other leads the dominant order toward a temporary communion with the technological system As such the commodity tranquilizes the centre s capital anxiety the panic caused by the machine s ability to both bestow being and cause non being and understand the permanent state of lack that is highlighted by both the form and content of the narratives described by alien myth *The Press, the State and Hegemony* Hong-Won Park,1999 **The Culture of Powerlessness and the Spirit of Rebellion Among the Aari People of Southwest Ethiopia** Alexander Naty,1992
