Divided Nations and European Integration Tristan James Mabry, John McGarry, Margaret Moore, Brendan O'Leary, 2013-06-27 For ethnic minorities in Europe separated by state borders such as Basques in France and Spain or Hungarians who reside in Slovakia and Romania the European Union has offered the hope of reconnection or at least of rendering the divisions less obstructive Conationals on different sides of European borders may look forward to increased political engagement including new norms to support the sharing of sovereignty enhanced international cooperation more porous borders and invigorated protections for minority rights Under the pan European umbrella it has been claimed that those belonging to divided nations would no longer have to depend solely on the goodwill of the governments of their states to have their collective rights respected Yet for many divided nations the promise of the European Union and other pan European institutions remains unfulfilled *Divided Nations and European Integration* examines the impact of the expansion of European institutions and the ways the EU acts as a confederal association of member states rather than a fully multinational federation of peoples A wide range of detailed case studies consider national communities long within the borders of the European Union such as the Irish and Basques communities that have more recently joined such as the Croats and Hungarians and communities that are not yet members but are on its borders or in its near abroad such as the Albanians Serbs and Kurds This authoritative volume provides cautionary but valuable insights to students of European institutions nations and nationalism regional integration conflict resolution and minority rights Contributors Tozun Bahcheli Zoe Bray Alexandra Channer Zsuzsa Cserg Marsaili Fraser James M Goldgeier Michael Keating Tristan James Mabry John McGarry Margaret Moore Sid Noel Brendan O Leary David Romano Etain Tannam Stefan Wolff

The Limits of Performance in the French Romantic Theatre Susan McCready, 2007 This volume analyzes major French plays of the 1830s focusing on their theatricality and on the ways in which they expose the workings of the theater rather than conceal them Through an examination of performance within these plays the study posits that the stage is a privileged site of demonstration a literal proving ground that lends a physical reality to abstract values announced in the text and shared or questioned by the audience Negotiating between the literary study of drama and performance theory this work breaks new ground in nineteenth century theater scholarship while proposing a fresh direction in the study of text and performance The Limits of Performance challenges conventional wisdom offering a novel take on the mal du siècle that thematic hardy perennial of French Romanticism and the nineteenth century in general combined with eminently readable and therefore compelling analysis of plays a thought provoking addition to work in the field Glyn Hambrook Modern and Contemporary France November 2008

Chinese revolutions in the twentieth their ascent stabilisation petrification and decline in a world still overwhelmingly dominated by scarcity The second volume of Sartre s Critique of Dialectical Reason was drafted in 1958 and published in France in 1985 first appearing in English in 1991 As in Volume One Sartre proceeds by moving from the simple to the complex from individual combat through a perceptive study of boxing to the struggle of subgroups within an organized group form and finally to social struggle with an extended analysis of the Bolshevik Revolution The book concludes with a forceful reaffirmation of dialectical reason of the dialectic as that which is truly irreducible in action
