Don Chipp The Third Man:

Don Chipp Don Chipp, John Larkin, 1978 *The Left, the Right and the Jews* W.D. Rubinstein, 2015-10-16 First published in 1982 this book examines anti semitism in the Western world The author concludes that fringe neo Nazi groups notwithstanding significant anti semitism is largely a left wing rather than a right wing phenomenon He finds that Jews have reacted to this change in their situation and in attitudes towards them by making a shift to the right in most Western countries with the major exception of the United States Considering the contribution of Jews to socialist thought from Marx onwards and the equally lengthy history of right wing anti semitism this shift is one of the most significant in Jewish history This movement to the right is discussed in separate chapters as is Soviet anti semitism and the status of the State of Israel Examined in depth are the implications of this shift in attitude for Jewish philosophy and self identity Empowerment and Control in the Australian Welfare State Philip Mendes, 2018-10-19 This book explores the tensions between the competing social rights and social control functions of the modern Australian welfare state By critically examining the history and rhetoric of the Australian welfare state from 1972 to the present day and using the author's long standing research on the Australian Council of Social Service and other welfare advocacy groups it analyses the transformation from rights based to conditional welfare The Labor Party Government from 1972-75 is identified as the only clear cut example of Australia positively using welfare payments and services as an instrument to promote greater social equity inclusion and participation Since the mid 1970s the Australian welfare state has gradually retreated from the social rights agenda conceived by the Whitlam Government Australia has followed other Anglo Saxon countries in adopting increasingly conditional and paternalistic measures that undermine the protection of social citizenship outside the labour market In contrast this text makes the case for an alternative participatory and decentralized welfare state model that would prioritize social care by empowering and supporting welfare service users at a local community level This book will be of interest to academics students and policy makers working within social policy social work and political sociology *Chipp* Don Chipp, 1987
