## **Dons Mentors Eccentrics And Geniuses:**

The Dons Noel Gilroy Annan Baron Annan,1999 For two hundred years Oxford and Cambridge Universities were home to some of Britain's greatest teachers and intellects each forming the minds of the passing generations of students and influencing the thinking and practice of university learning throughout the country and the world In this entertaining informative book Noel Annan is at his incisive best Displaying his customary mastery of his subject he describes the great dons in all their glory and eccentricities who they were what they were like why they mattered and what their legacy is Written with love and wisdom the great minds of the past figures such as John Henry Newman John Sparrow and Isaiah Berlin are brought alive In addition Annan's often quoted article *The Intellectual Aristocracy* is included in this book No other work has ever explained so precisely and so intimately the significance of the dons and their important role in shaping higher education at a time when the nature of learning is ever more the subject of dissension and uncertainty *The Dons: Mentors, Eccentrics and Geniuses (Text Only)* Noel Annan,2016-08-31 A wonderfully engaging and entertaining history of the great dons of the last two hundred years by one of our leading historians of ideas Political Intellectuals and Public Identities in Britain Since 1850 Julia Stapleton,2001 When Britain left the European Union in January 2021 it set out on a new journey Shorn of empire and now the EU too Britain's economy is as national as it has ever been A decade or so since globalisation seemed inevitable this is a remarkable reversal How did this happen Britain alone argues that this nationalisation aligning the boundaries of the state with its national peoples emerged from the 2008 global financial crisis The book analyses how austerity and scarcity intensified and created new conflicts over who gets what This extends to struggle over what the British nation is for who it represents and who it values Drawing on a range of cultural economic and political themes immigration and the hostile environment nostalgia and Second World War mythology race and the left behind the clap for carers and furloughing as well as Superscrimpers and stand up comedy the book traces the complex nationalist path Britain took after the crash demonstrating how we cannot explain nationalism without reference to the economy and vice versa In analysing the thread that ties the fallout of the crash and austerity through Brexit and to the shape of lockdown politics Britain alone provides an incisive and original history of the last decade of Britain and its relationship to the global economy Rediscovering E.R. Dodds Christopher Stray,C. B. R. Pelling,S. J. Harrison,2019 Famous for his visionary book *The Greeks and the Irrational* 1951 E R Dodds was not only a remarkable classical scholar but also a poet with extensive links to 20th century English and Irish literary culture This volume explores his life career and legacy including a group of memoirs by some of his pupils and friends **Harvard Review** ,2000 **The State of Freedom** Patrick Joyce,2013-04-04 What is the state The State of Freedom offers an important new take on this classic question by exploring what exactly the state did and how it worked Patrick Joyce asks us to re-examine the ordinary things of the British state from dusty government files and post offices to well-thumbed primers in ancient Greek and Latin and the

classrooms and dormitories of public schools and Oxbridge colleges This is also a history of the who and the where of the state of the people who ran the state the government offices they sat in and the college halls they dined in Patrick Joyce argues that only by considering these things people and places can we really understand the nature of the modern state This is both a pioneering new approach to political history in which social and material factors are centre stage and a highly original history of modern Britain

more vaguely but emotionally supported by a broader view of worth Merit is consistent with liberal democracy but worth is the special province of social democracy None of the distinctions is easily categorised by political party or ideology They are the result of opposite moral impulses inherent in plural democratic societies undergoing the strains of internal and global competition
