Ducks of Britain and Europe M. A. Ogilvie, 2010-11-30 The identification ecology and biology of the ducks of Europe The forty two species or subspecies of ducks which occur in Europe including eleven vagrants from North America or Asia are the subject of this book Its author is an accepted authority on ducks and geese and has been a member of the research staff of the Wildfowl Trust at Slimbridge since 1960 Most birdwatchers consider ducks to be especially attractive and interesting birds and many species of ducks are also the legitimate quarry of wildfowlers Both groups need to identify the species quickly and accurately and almost half of the book is devoted to identification offering a far more detailed account than is to be found in any of the field guides There are detailed descriptions species by species of the adult males and females immature birds eclipse males and downy young voice too is dealt with and full colour plates of males and females show the flight patterns so important for correct species identification The habits of European ducks are treated in chapters on behaviour and ecology breeding biology distribution and status and the ever fascinating topic of migration and navigation The distribution chapter has maps showing the summer and winter ranges in Europe North Africa the Middle East and Central Russia for 24 species A final chapter considers the present day threats to ducks and their wetland habitats and the conservation measures being taken to combat the threats The colour plates and more than 80 line drawings in the text are by Carol Ogilvie the author s wife Jacket illustration by Carol Ogilvie

Walking Forward, Looking Back Dinah Latham, 2014-10-28 The book tells the story of a retired district nurse and midwife reflecting on her life whilst walking with her close companion Harriet the dog It is a touchingly honest work written straight from the heart The reader will both laugh and cry as the author recounts many moving stories of patients cared for in 1960s London The writings so patently contrast care in the community then and now

that it becomes impossible not to regret the passing of a time when nursing was seen as a vocation when nurses were proud to serve Divorce and single parenthood accompany her career journey while living alone escorts her into retirement It is then that fortune takes a hand or rather a paw and brings Harriet the dog into her life This may just have been the coming together of chance and good timing but destiny or happy accident it was certainly a blessing It was her need to be taken on daily walks that finds our author evoking memories randomly flicking through a lifetime of unwritten diaries Together they share their walks taking the reader through the changing seasons of the Chiltern countryside while also travelling a new pathway one with an unfamiliar landscape a one way journey into growing old This is a voyage of discovery one that promises many unexpected new experiences not the least of which is their most recent pastime sheepherding Animals and Me of the Ocean, Land and Sky Eric I.
