Dudley Docker The Life And Times Of A Trade Warrior:

Dudley Docker R. P. T. Davenport-Hines, Richard Peter Treadwell Davenport-Hines, 2004-04-22 This is an exploration of the life of Dudley Docker 1862 1944 one of the most powerful businessmen of his era It sketches the life and times of Docker describes the deals he fixed and recounts the rise and fall of the companies he directed **From Crisis to Crisis** Brian O'Sullivan, 2018-12-11 From Crisis to Crisis examines the impact of the harsh conditions of the interwar economy on the British merchant banks The financial crises of 1914 and 1931 are assessed using primary sources The competitive threats including the rise of New York as a rival financial centre are considered It challenges alleged special treatment and provides fresh perspectives on the interwar rationalisation of industry During the late nineteenth century Britain's merchant banks had become pre eminent in a world of fixed exchange rates free trade and the unfettered mobility of international capital This world was increasingly challenged in the interwar period being replaced by floating exchange rates trade protectionism and restrictions on capital movements This book fills a gap in the historiography of British banking by recovering the histories of long forgotten merchant banks rather than focusing on the better known firms Using a wide range of archival resources it traces the strategic transformation by some merchant banks from higher risk capital intensive activities to lower risk advisory services Brian O Sullivan has been jointly awarded the 2019 BAC Wadsworth Prize for From Crisis to Crisis The Transformation of Merchant Banking 1914 1939 It was judged by the Business Archives Council BAC to have made an outstanding contribution to the study of British business history Brian shared the prize with Professor Priya Satia of Stanford University in California **Victorian Liberalism** Richard Bellamy, 2024-01-01 First published in 1990 Victorian Liberalism brings together leading political theorists and historians in order to examine the interplay of theory and ideology in nineteenth century liberal thought and practice Drawing on a wide range of source material the authors examine liberal thinkers and politicians from Adam Smith Jeremy Bentham and John Stuart Mill to William Gladstone and Joseph Chamberlain Connections are drawn throughout between the different languages which made up liberal discourse and the relations between these vocabularies and the political movements and changing social reality they sought to explain The result is a stimulating volume that breaks new ground in the study of political history and the history of political thought

Encyclopedia of Life Writing Margaretta Jolly, 2013-12-04 First published in 2001 This is the first substantial reference work in English on the various forms that constitute life writing As this term suggests the Encyclopedia explores not only autobiography and biography proper but also letters diaries memoirs family histories case histories and other ways in which individual lives have been recorded and structured It includes entries on genres and subgenres national and regional traditions from around the world and important auto biographical writers as well as articles on related areas such as oral history anthropology testimonies and the representation of life stories in non verbal art forms **Personal Capitalism and Corporate Governance** Myrddin John Lewis, Roger Lloyd-Jones, Mark David Matthews, 2016-05-13 This book is specifically

aimed at addressing a gap in the study of the evolution of corporate governance in Britain. In particular its key theme the relationship between corporate governance and personal capitalism in British manufacturing in the first half of the twentieth century provides the means for a systematic and critical examination of the dominant Chandlerian paradigm that the long running persistence of personal capitalism shaped the governance of British manufacturing firms well into the twentieth century and acted to erode their competitive performance. The book helps to identify those aspects of corporate governance that have undergone change with some critical observations on the magnitude of change and those aspects which have displayed characteristics of continuity. The empirical spine of this book is set out in a series of case studies which provide the basis for the examination of corporate governance in Britain during the period c 1900 to 1950. By focusing particularly on the responses of a range of businesses to the turbulent environment of the inter war years this volume offers an insight into a much neglected yet vital area of business and economic history.

The Rise of Modern Business in Great Britain, the United States, and Japan Mansel G. Blackford, 1998. Newly revised and updated. The Rise of Modern Business compares and analyzes the development of business and business institutions in Great Britain the United States Japan and to a lesser extent Germany from the preindustrial era to the present with emphasis on the twentieth century. Because the evolution of business has been profoundly influenced by its environment this study pays close attention to connections between business development and political social and cultural changes. It also offers an insightful argument on similarities and differences in global business development the similarities result from the technological and economic imperatives of industrialization and the differences result from the decisive influence of the national environments laws politics social norms and culture within which businesses operate. This edition of The Rise of Modern Business further highlights the diversity and complexity of business developments by examining both manufacturing and nonmanufacturing firms exploring the development of small firms in addition to big businesses and weighing the importance of labor and government for business development in all four nations discussed.
