Durkheim And Representations:

Durkheim and Representations W. S. F. Pickering, 2002-03-11 Durkheim's sociological thought is based on the premise that the world cannot be known as a thing in itself but only through representations rough approximations of the world created either individually or collectively This set of papers by leading Durkheimians from Britain America and continental Europe is the first concentrated attempt to understand what he meant by representations how his understanding of the term was influenced by Kant and by neo Kantians like Charles Renouvier and how his use of the concept in his work developed over time By arguing that his use of representations at the the core of Durkheim's sociological thought this book makes a unique contribution to Durkheimian studies which have recently been dominated by positivist and functionalist interpretations and reveals a thinker very much in tune with contemporary developments in philosophy linguistics and sociology

Emile Durkheim and the Reformation of Sociology Stjepan G. Mestrovic, 1988-11-28 This book proposes a new representation of Emile Durkheim as the philosopher and moralist who wanted to renovate rationalism challenge positivism reform sociology and extend Schopenhauer's philosophy to the new domain of sociology Above all it highlights Durkheim's vision of sociology as the science of morality that would eventually replace moralities based on religion **Columbia University Studies in the Social Sciences**, 1915 **Durkheim and Postmodern Culture** Stjepan Mestrovic, 2017-09-29

The present work is an elaboration of the author's previous efforts in *Emile Durkheim and the Reformation of Sociology* 1988 and *The Coming Fin de Sicle* 1991 to demonstrate Durkheim's neglected relevance to the postmodern discourse. The aims include finding affinities between our fin de sicle and Durkheim's fin de sicle and connecting the contemporary themes of rebellion against Enlightenment narratives found in postmodern culture with similar concerns found in Durkheim's sociology as well as in his fin de sicle culture contributing to Durkheimian scholarship as well as to the postmodern discourse. The distinctive aspects of the present study flow from the focus on culture communication and the feminine voice in culture. Durkheim is approached as a fin de sicle student of culture and his insights applied to our fin de sicle culture. Furthermore, because Durkheim claimed that culture is comprised primarily of collective representations, he was a forerunner of the current postmodern concerns with communication. Because Durkheim shall be read in the context of his fin de sicle, this book shall lead to the conclusion that Durkheim was a kind of psychoanalyst such that society is the patient, culture comprises the symptoms, and the sociologist must decipher, decode, and even deconstruct collective representations. Yet the Durkheimian deconstruction proposed here is unlike the postmodern deconstructions which criticize and tear apart a text without substituting a better meaning or interpretation. Postmodern discourse has made respectable again the synthesis of multidisciplinary insights that was fashionable in Durkheim's fin de sicle. In following this postmodern strategy, this book is more than a book about Durkheim. It is also a book about his contemporaries among them Carl Gustav Jung, Thorstein Veblen, Henry Adams, Georg Simmel, and Max Weber. The author does not follow the postmodern strategy completely because he f
