Publisher description      **Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan Sinclair,C. H. Bleaney,Pablo García Suárez,2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies      **Building Apartheid** Nicholas Coetzer,2016-04-22 Through a specific architectural lens this book exposes the role the British Empire played in the development of apartheid Through reference to previously unexamined archival material the book uncovers a myriad of mechanisms through which Empire laid the foundations onto which the edifice of apartheid was built It unearths the significant role British architects and British architectural ideas played in facilitating white dominance and racial segregation in pre apartheid Cape Town To achieve this the book follows the progenitor of the Garden City Movement Ebenezer Howard in its tripartite structure of Country Town Suburb acknowledging the Garden City Movement s dominance at the Cape at the time This tripartite structure also provides a significant match to postcolonial schemas of Self Other Same which underpin the three parts to the book Much is owed to Edward Said s discourse analytical approach in *Orientalism* and the work of Homi Bhabha in the definition and interpretation of archival material This material ranges across written and visual representations in journals and newspapers through exhibitions and events to legislative acts as well as the physicality of the various architectural objects studied The book concludes by drawing attention to the ideological potency of architecture which tends to be veiled more so through its ubiquitous presence and in doing so it presents not only a story peculiar to Imperial Cape Town but one inherent to architecture more broadly The concluding chapter also provides a timely mirror for the machinations currently at play in establishing a post apartheid architecture and urbanity in the new South Africa      **Dutch Modern Architecture, 1900-1940** Donald Langmead,1987
