Dutch Anabaptism Origin Spread Life And Thought 1450 1600:

Dutch Anabaptism Cornelius Krahn, 2004-10-04 Krahn avoids the hero worship which is common among many rehabilitators of Anabaptism. In his presentation the giants of Anabaptism as well as those of the Magisterial Reformation turn out again and again to have clay feet. No attempt is made to rationalize these apparent weaknesses. Out of Dutch mysticism there grew a spiritualizing tendency which could not be confined to the question of the Lord's Supper. Frank C. Roberts in Calvin Theological Journal. Krahn's greatest service is in the distilling more than a century of Dutch scholarship and he performs it judiciously. Especially interesting is his argument that both Reformed Protestantism and Anabaptism had their roots in the Sacramentarian movement of the 1520s. Alastair C. Duke in Journal of Ecclesiastical History. The author's extensive and accurate knowledge of both the modern and the sixteenth century Dutch language together with his careful and competent evaluation of the conflicting interpretations of the events make his survey of Dutch Anabaptism a reliable source of information. Krahn has made a serious attempt to immerse himself in the issues and to assess fairly the clashing opinions. H. W. Meihuizen in Mennonite Quarterly Review. *Henry VIII and the Anabaptists* Albert Pleysier, 2014-04-01 Henry VIII and the Anabaptists describes a bloody chapter in the reign of the infamous Tudor king. The book begins with the birth of Anabaptism in the city of Zurich and follows the Anabaptists as they search for religious freedom across the European Continent and into England. Intolerant of religious diversity and sensitive to potential threats to his political authority, Henry's suppression of the Anabaptists leaves them with two choices: recant or burn. Dirk Philips, A Sixteenth-Century Dutch Anabaptist Insung Jeon, 2022-03-18 The purpose of this book is to shed light on the thought of Dirk Philips, who was a Mennonite leader in the sixteenth century and to argue that his various doctrines including his Christology, ecclesiology, soteriology, and anthropology are interrelated with his view of the visible church. This book explains that Dirk Philips' view of the visible church is much closer to the ecclesiology of Augustine's tradition rather than to the ecclesiology of the Donatists' tradition. Although Dirk Philips had excellent theological abilities and he was a leader who made a significant contribution to the development of the Mennonites' camp, he did not receive much attention in the study of Anabaptists and there has not been much research on this sixteenth-century Mennonite leader. Thus this book will help you discover a great sixteenth-century leader who has been forgotten in church history. Is it true that the Radical Reformers are disciples of Donatus? That the Anabaptists thought that the failed believers cannot be forgiven because the church is a gathering of pure souls? This book will probe the idea that the Radical Reformation is closer to the ecclesiology of Augustine's tradition than to the ecclesiology of the Donatists' tradition. The Dutch Dissenters: A Critical Companion to their History and Ideas Irvin Buckwalter Horst, 2018-12-24 **The Concept of Grace in the Radical Reformation** Alvin J. Beachy, 2024-04-15 A major new contribution towards the history and theology of the Radical Reformation, the study represents a breakthrough in Anabaptist research. From the Foreword by George H. Williams **Radical Religious Movements in Early Modern**

Europe Michael Mullett, 2023-03-08 *Radical Religious Movements in Early Modern Europe* 1980 examines Western European history during three crucial centuries of transition. He expands the concept of Reformation to cover all the movements of religious resurgence in the fifteenth, sixteenth, and seventeenth centuries in Europe. Social, economic, political, literary, and artistic developments are fully considered alongside more strictly religious themes. **Dutch Anabaptism** Cornelius Krahn, 1968 **The Anabaptists and Thomas Muntzer** James M. Stayer, Werner O. Packull, 1980 A selection of Anabaptist studies published over the last forty years. *Religions of the World* J. Gordon Melton, Martin Baumann, 2002 An extraordinary survey in four volumes of the religious belief and practice in all 276 of the world's nations and territories. From the Aboriginal Cult of Maria Lionza in Venezuela to Zionist and Apostolic churches in South Africa and Zimbabwe. *Religions of the World* is the only comprehensive compilation of the world's existing major religious communities. This extraordinary four-volume survey examines the religious history and key religious communities in all 240 recognized nations and territories. More than 200 international experts contributed the 1,200 entries covering each group's origin, history, organization, ecumenical contacts, and present status. Other entries focus on individual countries, surveying the current state of religious practice supported by statistical data from leading religious statisticians. David B. Barrett and Todd M. Johnson. The volumes place African independent churches, Japanese new religions, and surviving indigenous beliefs alongside Catholicism, Judaism, Christianity, and Islam. Illustrated and indexed, and including cross-references and end-of-entry bibliographic citations, this remarkable set is destined to become the primary reference source on religious issues throughout the world. 1,200 A-Z entries including individual religious groups, country-by-country entries, and core entries that address major world religions. 200 contributors including top religious scholars from around the globe. Photographs of religious leaders, ceremonies, sacred structures, and artifacts such as an Aboriginal sacred Churunga and the Gurujem Monastery in Tibet. Statistical data on the projected status of religions for 2000 to 2050, broken down by country and by type of religion. Cross-references and end-of-entry bibliographic citations. **Assurance of Faith** Joel R. Beeke, 1991 Against the backdrop of the magisterial Reformers, with special attention to Calvin. Dr. Beeke examines the theological development of personal assurance of faith from 1600 to 1760 in English Puritanism and its parallel movement in the Netherlands, the so-called Second Reformation. In-depth studies and comparisons of William Perkins, Willem Teellinck, the Westminster Confession, John Owen, Alexander Comrie, and Thomas Goodwin convincingly demonstrate with fresh insights that the differences between Calvin and English/Dutch Calvinism on assurance arose primarily from a newly evolving pastoral context rather than from foundational variations in doctrine. By a careful study of the role of God's promises, the practical and mystical syllogisms, and the witness of the Spirit, this study breaks new ground in revealing how English and Dutch Calvinism developed a biblically balanced doctrine of assurance, which the Christian church sorely needs today. **Journal of Mennonite Studies**, 1990 *Vision, Doctrine, War* James C. Juhnke, 1989 In the four decades covered by this book, the American Mennonites and Amish nearly doubled in membership.

Their encounters with Protestant revivalism organizational techniques modernism and the First World War affected each group differently This book is the story of those encounters and the changes that resulted from them **'Goostly Psalmes and Spirituall Songes'** Robin A. Leaver,1987 **The Holdeman People** Clarence Hiebert,1973 **Rembrandt** Stephanie Dickey,2004 This is the first monograph devoted to Rembrandt s etched portraits of himself and his contemporaries Between 1633 and 1665 Rembrandt etched less than two dozen formal portraits yet this small body of work includessome of his most finely crafted and widely sought after prints Rembrandt depicted influential preachers of the Remonstrant Reformed and Mennonite faiths as well as prominent citizens such as the tax administrator Jan Wtenbogaert the wealthy connoisseur Jan Six the physician Arnout Tholinxand the landscape painter Jan Asselijn Most of these men participated in a circle of artists poets and patrons who thought of themselves as a Dutch Parnassus For this community of art lovers the celebration of individual character and accomplishment in products ranging from imposing portrait sculptures to witty occasional verses was a central preoccupation This book brings together contextual evidence such as preparatory studies inscribed copies and literary responses of Rembrandt s etched portraits **Radical Reformation Studies** James M. Stayer,1999 This review brings together new research in three areas of Anabaptist studies and the Radical Reformation Part One focuses on sixteenth century Anabaptism re examining the polygenesis model of Anabaptism articulated by Stayer Packull and Depperman Part Two deals with the connections between Anabaptists and other Reformation dissenters their marginalisation as social groups and their relations with the intellectual movements of the age The final section addresses historiographic and comparative issues of writing the history of marginalised groups investigating some preconceptions which influence historians approaches to Anabaptism and their implications for understanding other religious groups
