Santi Gucci Fiorentino, Artist and Entrepreneur in Early

Modern Poland Olga Maria Hajduk, 2024-04-23 The original research in this book analyzes the artistic activity of Santi

Gucci 1533 c 1600 a Florentine sculptor active in Poland in the second half of the sixteenth century and his workshop

Chapters examine the organization of the artistic workshop sculpting and masonry and the model of the artist s functioning

as an entrepreneur in Renaissance Poland using Santi Gucci s activity as an example Gucci shaped the image of Polish

sculpture in the sixteenth century for more than 50 years even though his work has not yet been fully examined The author

sets Gucci s emigration within the context of the cultural exchanges between Italy and Poland that contributed to the

development of the Polish Renaissance The book will be of interest to scholars working in art history Renaissance studies

architectural history and economic history *Encyklopedia staropolska ilustrowana* Zygmunt Gloger, 1901 Romanesque

Renaissance Konrad Adriaan Ottenheim, 2021-01-11 In early modern times scholars and architects investigated age old

buildings in order to look for useful sources of inspiration They too occasionally misinterpreted younger buildings as proofs of

majestic Roman or other ancient glory such as the buildings of the Carolingian Ottonian and Stauffer emperors But even if

the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture

since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide

phenomenon The results are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival

of an ancient architecture whatever the date and origin of these models Contributors Barbara Arciszewska Lex Bosman Ian

The Quest for an Appropriate Past in Literature, Art and Architecture

, 2018-10-16 This volume explores the various strategies by which appropriate pasts were construed in scholarship literature

art and architecture in order to create national regional or local identities in late medieval and early modern Europe Because

authority was based on lineage political and territorial claims were underpinned by historical arguments either true or

otherwise Literature scholarship art and architecture were pivotal media that were used to give evidence of the impressive old lineage of states regions or families These claims were related not only to classical antiquity but also to other periods that were regarded as antiquities such as the Middle Ages especially the chivalric age The authors of this volume analyse these intriguing early modern constructions of antiquity and investigate the ways in which they were applied in political intellectual and artistic contexts in the period of 1400 1700 Contributors include Barbara Arciszewska Bianca De Divitiis Karl Enenkel Hubertus G nther Thomas Haye Harald Hendrix Stephan Hoppe Marc Laureys Fr d rique Lemerle Coen Maas Anne Fran oise Morel Kristoffer Neville Konrad Ottenheym Yves Pauwels Christian Peters Christoph Pieper David Rijser Bernd Roling Nuno Senos Paul Smith Pieter Vlaardingerbroek and Matthew Walker
