Graphic Artists Guild Handbook, 17th Edition

The Graphic Artists Guild, 2025-11-04

The industry bible for graphic arts professionals with pricing guidelines and information on business, ethical, and legal issues in a new updated edition with essential information on AI, NFTs, social media, and more. For over 50 years, the Graphic Artists Guild Handbook has been an indispensable resource for graphic arts communication, design, and illustration professionals. As the graphic art marketplace continues to evolve with the changing digital and print media landscape, the need for up-to-date information on business, ethical, technical, and legal issues is greater than ever. The content of the 17th Edition has been updated and expanded to create a resource that is relevant to how graphic artists work today. New content addressing generative AI and ways to protect your work. How to develop a business plan. A new section on non-fungible tokens, NFTs, and how artists are using them to maximize their income. The addition of the following sub-disciplines: public art, mural art, and social media design/marketing. Realistic pricing guidelines to help the self-employed create a sustainable livelihood and plan for times of economic uncertainty. Current U.S. salary information and freelance rates by discipline. Up-to-date copyright registration information, including an explanation of the Copyright Claims Board and how to use it. Model contracts and forms to adapt to your specific needs. Eight new interviews with diverse and self-employed graphic artists. A QR code to access future updates that will be available on the Graphic Artists Guild website. This new robust edition also includes a dedication to industry legend Cheryl D. Miller and a foreword by industry luminary Debbie Millman, best known as the host of the podcast Design Matters, along with a wealth of contributing writers who offer tips on and insight into today's most pressing topics.

After the Pandemic Randy Whitaker,2022-10-10 Many things define a job seeker experience education first impressions connections passion and the value you might bring to the company you wish to work for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would have a four year college degree To a great extent an employer still would like someone with a four year college degree However I believe this is changing The need for those who work with their hands and those who are willing to work their way up through the various levels of an organization is becoming more and more desired by companies The time it will take you to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly hired college grad based on the four years you have been working in your industry of choice as you continue to work your way up through the

company You will find the more value you bring to a company the more they will look to you to assume great responsibility Typically the more responsibility the greater the paycheck What makes this book timely is the fact as COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself the job you always wanted without the cost and time involved with getting a four year college education I have nothing against getting a degree and there are still many fields where they will always be mandatory however the trades service industries government railroads law enforcement plus many others will welcome you with open arms without the need for a four year degree I hope this book helps
