Emerging stages of the internet are now built on a plethora of different technologies working in an interoperable ecosystem. Many of these technologies converge creating unexpected innovative value for society and organizations. For society, disruptive technologies alter the way people interact and lead their lives both personally and professionally. These changes have immediate and long-term consequences whose effects are subtle and need to be further identified and discussed.

Impacts of Sensetech on Society explores emerging technologies that amplify social and economic change. It examines various fields where the impact would otherwise be lower, namely by leveraging the convergence effect. Covering topics such as information technologies, user preferences, and immersive journalism, this book is an excellent resource for computer engineers, sociologists, economists, policymakers, researchers, academicians, and more.

Event Communication Barbara Mazza, 2024-02-02. Focuses attention on communication studies as applied to Event Management through the whole event management process. It pays particular attention to the latest technological innovations with the event industry, including virtual events and digital technologies.

ICTforAg 2024 Technical Report Koo, Jawoo, Manning, Matt, Angus, Dawn, 2024-08-13. ICTforAg is an annual convening where agricultural stakeholders and technology experts come together to share knowledge, find solutions, and form partnerships to address challenges in agri-food systems across low and middle-income countries. The main goal of ICTforAg is to grow communities and catalyze meaningful conversations, insights, and collaborations, increase participation of participants from the developing world, promote knowledge sharing and learning, and inspire practitioners to develop inclusive and sustainable ICT solutions. ICTforAg has a strong history since 2015 and owes its success to the contributions made by various organizations to build this community. In 2019, it moved to being hosted by USAID with support from DAI and the Digital Frontiers project. For the first five years, ICTforAg events took place in Washington DC with 100-200 attendees annually. The COVID pandemic prompted ICTforAg to become a global online forum with over 1,500 participants in 2020 and 3,000 in 2022. Speaker numbers also grew from 40 in 2019 to 145 in 2022. In 2023, CGIAR and DevGlobal in partnership with USAID Feed the Future and DAI Digital Frontiers jointly implemented ICTforAg 2023 as a global online conference on November 7-9. ICTforAg 2023 engaged 1,778 attendees and 145 speakers. In 2024, these entities implemented ICTforAg 2024 as a hybrid event on May 28-30 with virtual programming and in-person programming across five locations: New Delhi, India; Nairobi, Kenya; Los Angeles, Philippines; Texcoco, Mexico; and Washington, DC, USA. CGIAR, the world's largest agricultural research for development organization, and DevGlobal, a world-class professional event management expert, have a track record of jointly organizing online, hybrid, and in-person events and engaging with well-recognized ICTforAg practitioners, academics, researchers, service providers, and users in public and private sectors, including smallholder farmers across low and middle-income countries. Both organizations are committed to growing ICTforAg communities and catalyzing meaningful conversations, insights, and collaborations.

Speak, Memorably Bill McGowan, Juliana Silva, 2025-06-10 The media guru and bestselling author of *Pitch Perfect* helps professionals break away from canned communications and find their true and most effective voice, no matter the workplace. The business world has adopted the wrong definition of successful communication. For many years, being on message was considered the prime directive. The overwhelming majority of professionals today exist in a rigidly narrow range of bland rhetoric, throwing around industry buzzwords and empty jargon to create the impression of business savvy. But when everyone sounds messaged and the same, no one stands out. And now, with more ways than ever to get your message across, it's never been harder to communicate clearly and have your message stick. Bill McGowan has devoted more than twenty years to helping people find their distinctive voice. From CEOs to White House staffers to television personalities, he has coached thousands of speakers to make their narrative more memorable and distinctive by breaking free from the challenges preventing them from selling their ideas with conviction, motivating their teams during challenging times, or clearly articulating a company's mission. *Speak Memorably* offers concrete strategies and tools to help anyone in any stage of their career cut through the numbing sameness of clichés and boring business rhetoric and find their authentic voice. Inspiring and entertaining, it is a masterclass in interpersonal communication and an inspiring call to action for professionals to break free from forgettable brand speak and instead craft thoughtful and memorable messages.
