The Stolen Childhood: How AI Is Deleting a Generation's Ability to Think, Feel, and Connect Alexander Darius, 2025-10-30 You were told it was progress The smart toy that promised to teach your toddler letters The educational app that could occupy them while you cooked dinner The chatbot that helped your teen with their homework You were sold a dream of easier parenting and smarter kids You were sold a lie While you were trying to do what s best for your family a silent and unregulated experiment was being run on your child In The Stolen Childhood investigative journalist Alexander Darius uncovers the unspoken truth that Silicon Valley doesn t want you to know the same AI systems marketed as helpful tools are functioning as sophisticated neurological traps systematically dismantling a generation s mental health critical thinking and capacity for human connection This is not another book about too much screen time This is an expos on a hidden epidemic of developmental sabotage revealing how Friendly AI chatbots have become suicide coaches for lonely teens leading to tragic preventable deaths The school issued laptop your child brings home is likely a 24 7

surveillance device assigning them a secret risk score you'll never see The toys in your own living room are spying on your child harvesting their voice and emotions to build a psychological profile that can be sold AI nudify apps are fueling a schoolyard sexual abuse crisis with teen boys creating deepfake images of their female classmates and your daughter's school photos are all they need You may feel you've sold your child out to the convenience of technology but you couldn't have known the game was rigged Drawing on leaked internal documents gut wrenching stories from parents on the front lines and startling new brain science this book provides what no other has a battle tested chapter by chapter action plan to fight back You're about to discover the one conversation you must have with your son about financial sextortion the specific apps to delete from your daughter's phone tonight and the legal rights you have that can force these companies to change The parent rebellion has begun The choice is yours will you stay on the sidelines afraid of what you might discover or will you join the fight to reclaim your child's future before it's too late This is the one book you can't afford to miss *Building a God* Christopher DiCarlo, 2025-01-21 Renowned ethicist provides essential guide to successfully navigating the future AI landscape In *Building a God* Christopher DiCarlo explores the profound implications of artificial intelligence surpassing human intelligence a destiny that seems not just possible but inevitable At this critical crossroad in our evolutionary history DiCarlo a renowned ethicist in AI delves into the ethical mazes and technological quandaries of our future interactions with superior AI entities From healthcare enhancements to the risks of digital manipulation this book scrutinizes AI's dual potential to elevate or devastate humanity DiCarlo advocates for robust global governance of AI proposing visionary policies to safeguard our society AI will positively impact our lives in myriad ways from healthcare to education manufacturing to sustainability AI powered tools will improve productivity and add ease to the most massive global industries and to our own personal daily routines alike But we have already witnessed the tip of the iceberg when it comes to the risks of this new technology AI algorithms can manipulate human behavior spread disinformation shape public opinion and impact democratic processes Sophisticated technologies such as GPT 4o, Dall-E 2 and video Deepfakes allow users to create distort and alter information Perhaps more troubling is the foundational lack of transparency in both the utilization and design of AI models What ethical precepts should be determined for AI and by whom And what will happen if rogue abusers decide not to comply with such ethical guidelines How should we enforce these precepts Should the UN develop a Charter or Accord which all member states agree to and sign off on Should governments develop a form of international regulative body similar to the International Atomic Energy Agency IAEA which regulates not only the use of nuclear energy but nuclear weaponry as well In this incisive and cogent meditation on the future of AI DiCarlo argues for the ethical governance of AI by identifying the key components obstacles and points of progress gained so far by the global community and by putting forth thoughtful and measured policies to regulate this dangerous technology **Help!
