Library Journal, 2006 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Participation and Media Production** Nico Carpentier, Benjamin De Cleen, 2008 In an era when especially new media are celebrated for their participatory potential questions about the nature and intensity of these participatory processes seem to be superfluous But

raising these questions pushes us into a critical mode towards the changes that have led to the present day media landscape. This volume's authors aim to activate this critical mode and reflect on the participatory nature of contemporary media organizations and products. In order to stand even a remote chance to realize this objective and to critically unravel the societal role of participation we need to acknowledge that participation is a complex and contested notion covering a wide variety of meanings and practices that are converging into a hybrid of technologies, genres and formats. At the same time, prudence is required as many of the empowering and transformative opportunities cover up a multitude of restrictions that deal with muting voices, appropriations, techniques of surveillance, inequalities and exclusions. This volume thus provides its readership with a set of analyses that reconcile the appreciation for the analogue and digital empowerment and emancipation with the critical analysis of their boundaries. Participation and Media Production is the result of the intellectual work of the participants of the 2007 San Francisco Conference of the International Communication Association (ICA).
