This guide provides K-12 educators with a structured evidence-driven approach to Professional Learning Communities (PLCs) offering powerful tools and facilitation techniques to enhance both teaching and professional growth. Unlike typical approaches to data teams, the VITAL (Visibly Improving Teaching and Learning) Collaboration model uses concrete evidence from teacher practice and student learning to establish clear goals and pathways for equitable instructional improvement. It facilitates visible growth in both teachers and students by examining artifacts such as lessons, classroom observations, student work, and assessment data.
