### **Digital Transformation in Education and Artificial Intelligence Application** Daniel Vasić, Mirela Kundid

Vasić, 2023-07-10 This book constitutes selected papers presented during the First International Conference on Digitization in Education MoStart 2023 held in Mostar Bosnia and Herzegovina in April 2023. The 12 presented papers were thoroughly reviewed and selected from the 30 submissions. The proceedings cover a diverse range of topics including artificial intelligence and robotics in education, games and simulations, intelligent tutoring systems, augmented and virtual reality, natural language processing, computer vision, IoT and metaverse applications, learning analytics, deep learning, and ethical issues in AI applications in education and law.

### **Transforming Business Education through Artificial Intelligence**

Sonu Dua, Sakshi Dua, Pawanpreet Kaur, 2025-11-18 This new book delves into the multifaceted intersection of AI and business education, offering insights, strategies, and perspectives on leveraging AI to enhance learning, decision making, and organizational efficiency. From the incorporation of AI into curriculum development to its application in decision making processes, content recommendation, and continuous learning initiatives, this volume illuminates the transformative potential of AI across various educational dimensions. It also discusses the practical implications of AI in areas such as customer relationship management, entrepreneurship, finance, international business, and retail management, providing actionable insights for business students, leaders, and educators alike. Through discussions on predictive analysis, knowledge management, content development, and the digital transformation of educational models, this book offers a holistic perspective on the role of AI in shaping the future of business education.

### **Career Services and Workforce Development Centers**

**for Libraries** Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18 With the rise of unemployment, increased career growth opportunities, and changing workforce demographics, libraries can support job seekers in several ways. Career Services and Workforce Development Center for Libraries: A Guide serves as a resource for libraries interested in creating, supporting, or enhancing their career services, economic, and workforce development programs for their communities. Going beyond collection development and hosting job fair activities, the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations. Ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities, programs, and services are shown. Academic and public librarians can support their users exploring career opportunities and development. Examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities. How can one start a career services or job center program in their libraries? What are specialized career services in libraries being offered? How can libraries advocate for funding for workforce development? Divided into five chapters, each chapter addresses these questions and provides a series of examples, ideas, and resources for readers to consider replicating in their own libraries. If you are looking for ideas for your libraries to
