Multilingual Classrooms for Young Children in the UK Jieun Kiaer, 2025-01-14 This book demonstrates the importance of raising multilingual children in the UK both for the children's own benefit and for the benefit of society as a whole. Against the backdrop of both the rich linguistic diversity already present in the UK and the challenges faced by any languages other than a few major European languages to find any space in educational contexts, the author challenges the myth that multilingualism hinders English language acquisition and use, instead emphasising the cultural and cognitive advantages of multilingual education and support for home and community languages. The book is a call to action for educators, policymakers and parents, combining practical strategies with research-based insights to support its readers in advocating for multilingual education. It presents a hopeful vision for education in the UK where teachers can combine technological innovations and the linguistic resources of their classrooms and communities to support and promote multilingualism.

Teacher Time Management Ellen I. Linnihan, 2025-01-28 Author Ellen I Linnihan illuminates three basic modes of operation: low, medium and high concentration, that teachers must master to optimize their time. Educators can use this book to determine where to streamline daily work, explore tools for maximizing efforts, learn effective teacher and student time management strategies designed for three different modes of concentration, know what the classroom looks and sounds like during low, medium and high concentration modes, field reflection questions that encourage reconsideration of how and when to complete certain tasks. Contents: Introduction, Chapter 1: Your Goal and Streamlining, Chapter 2: Low Concentration Mode, Chapter 3: Medium Concentration Mode, Chapter 4: High Mode of Concentration, References and Resources, Index.
