School Counselors as Practitioners Judy A. Nelson, Lisa A. Wines, 2024-06-25 School Counselors as Practitioners Second Edition is a hands on practice based task oriented guide to being an effective school counselor Thoroughly revised this textbook continues to address the foundation of school counseling the main duties of a school counselor the skills needed to be successful and what to expect as a school counseling professional All these topics

have been updated to include the current thinking research and evidence based practices and challenges in school counseling. Additionally, interviews of principals, school counselors, and community leaders are included, which provide readers with the reality of how to navigate the waters of the comprehensive school counseling program. The chapter authors also highlight the necessity of designing, implementing, and evaluating the counseling program for continuous improvement. Online resources provide students with templates and handouts for on-the-job responsibilities as well as quiz questions for every chapter. This updated edition is essential reading for counselor educators, graduate students enrolled in a school counseling program, supervisors of school counselors, including administrators, and practicing school counselors.

Advancing Natural Language Processing in Educational Assessment Victoria Yaneva, Matthias von Davier, 2023-06-05. *Advancing Natural Language Processing in Educational Assessment* examines the use of natural language technology in educational testing, measurement, and assessment. Recent developments in natural language processing (NLP) have enabled large-scale educational applications, though scholars and professionals may lack a shared understanding of the strengths and limitations of NLP in assessment, as well as the challenges that testing organizations face in implementation. This first of its kind book provides evidence-based practices for the use of NLP-based approaches to automated text and speech scoring, language proficiency assessment, technology-assisted item generation, gamification, learner feedback, and beyond. Spanning historical context, validity, and fairness issues, emerging technologies, and implications for feedback and personalization, these chapters represent the most robust treatment yet about NLP for education measurement researchers, psychometricians, testing professionals, and policymakers. The Open Access version of this book is available at www.taylorfrancis.com and has been made available under a Creative Commons Attribution NonCommercial No Derivatives 4.0 license.

Transforming Digital Learning and Assessment Peggy L. Maki, Peter Shea, 2023-07-03. Responding to both the trend towards increasing online enrollments as the demand for face-to-face education declines and to the immediate surge in remote learning owing to the COVID-19 pandemic, this book provides vital guidance to higher education institutions on how to develop faculty capacity to teach online and to leverage the affordances of an ever-increasing array of new and emerging learning technologies. This book provides higher education leaders with the context they need to position their institutions in the changing online environment and with guidance to build support in a period of transition. It is intended for campus leaders and administrators who work with campus teams charged with identifying learning technologies to meet an agreed-upon program or institution-level educational needs for those coordinating across campus to build consensus on implementing online strategies and for instructional designers, faculty developers, and assessment directors who assist departments and faculty effectively integrate learning technologies into their courses and programs. It will also appeal to faculty who take an active interest in improving online teaching. The contributors to this volume describe the potential of

artificial intelligence algorithms such as those that fuel learning analytics software that mines LMS data to enable faculty to quickly and efficiently assess individual students progress in real time prompting either individual attention or the need to more generally clarify concepts for the class as whole They describe and provide access to a hybrid professional development MOOC and an associated WIKI that curate information about a wide range of learning software solutions currently available and present case studies that offer guidance on building the buy in and consensus needed to successfully integrate learning technologies into course program and institution level contexts In sum this book provides readers with a comprehensive understanding of the technological capabilities available to them and identifies collaborative processes related to engaging and building institutional support for the changes needed to provide the rapidly growing demand for effective and evidence based online learning
