Coauthored by social work and writing pedagogy experts combining decades of teaching and field experience **A Writer's Practice** Kate Krake, What if writing didn't have to rely on willpower or discipline What if it could become a natural nourishing part of your everyday life A Writer's Practice helps you build a writing habit that lasts This isn't about rigid schedules or endless hustle This is about crafting a writing routine that fits who you are fuels your creative energy and supports your long term writing goals Inside you'll learn how to Develop a consistent writing habit that feels natural not forced Create a writing routine that adapts to your real life Overcome perfectionism procrastination and burnout Find lasting motivation to write even on the hard days Reconnect with your authentic creative voice A Writer's Practice invites you to replace pressure with rhythm and burnout with balance You'll discover that sustainable productivity for writers isn't about forcing productivity It's about nurturing a creative life that keeps you coming back to the page with ease If you're ready to make writing a steady joyful part of your everyday get A Writer's Practice and start living the writing life that truly fits you

Artificial Intelligence, Pedagogy and Academic Integrity Alyson E. King, 2025-07-01 This book addresses the implications of artificial intelligence for teaching learning and academic integrity in higher education It explores policies about the use of Generative Artificial Intelligence GenAI describes how to teach writing in the era of GenAI and how instructors can design courses and assessments that prevent plagiarism while building the necessary skills for critical thinking and writing Together the chapters include research results case studies teaching methodologies course design ideas analysis of power and gatekeeping and best practices related to GAI from a diverse range of researchers from English and French Canada the United States England Ukraine and Croatia The authors approach the advent and rapid spread of GenAI in higher education by examining its use from different perspectives with a particular focus on its impact on academic integrity Taking a communication studies approach consideration is given to the role GenAI might play disrupting power structures in universities to improve access for students who are non traditional or English Language Learners The book also explores how reimagining teaching methodologies can help to mitigate academic integrity violations due to misuse of GenAI and to teach students to use GenAI with integrity as a research and brainstorming tool Students need to learn how to assess the reliability of GenAI's output as they develop the skills for research and writing Methods of teaching writing and research skills using GenAI are explored in an effort to ensure that critical thinking skills are developed successfully Most instructors who use writing intensive assessments believe that essential critical thinking skills are developed via the writing process often ideas become concrete as one writes about them Teaching with GenAI can provide opportunities for instructors to guide their students into a deeper analysis and critique of their research **American Inventor** ,1907 **Scientific American** ,1892

The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have

grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future

National Republican ,1927 *Academic Writing, Assessment, and Neurodiversity* Adrian J. Wallbank,2025-11-28 The number of students with specific learning difficulties entering higher education has increased dramatically over the last decade yet academic support for these students is often insufficient This innovative book will equip teaching staff with the tools to support these students with learning and assessment arming them with the skills they need to excel in higher education Combining a scholarly rationale for inclusive pedagogies with practical strategies for busy practitioners the book uses accessible and meaningful inclusive techniques based on the principles of Universal Design for Learning UDL the theory of Complementary Cognition and the author s own principles of compositional pictography to show how educators can harness students differing cognitive strengths and help them to use them to their own advantage The book demonstrates how the challenges associated with learning differences are manifested in student writing and assessment with chapters covering such topics as How to scaffold support to develop the areas students find challenging How to deploy metaphorical and visual pedagogies to develop approaches to studying and writing How to make assessment design more inclusive Presenting an inclusive practical and research informed pedagogical approach to the teaching of academic writing this practical guide is an essential read for anyone supporting higher education students with assessment including tutors lecturers learning developers and disability advisors
