Free Global Cities Christian H Kälin, 2025-03-20 This book proposes a new solution to the problem of the migration crisis engulfing the world by creating safe harbours or Free Global Cities. In the face of the largest displacement crisis on record even the most optimistic view of the future suggests that in the years ahead more and more people will migrate in order to survive. The world requires places where refugees and other migrants forced to leave their homes have the opportunity to work study create start businesses and rebuild new lives for themselves and their families. Free Global Cities can deal with this growing global crisis in a completely new way. They are autonomous self governed subnational entities that provide a safe environment and rule of law that will create wealth and prosperity for its residents as well as for the nations hosting them. Such a model would contribute significantly to handle the largest migration crisis in history which the world will be experiencing in the coming decades.

Generative AI in Writing Education Dylan Medina, 2024-10-02 This book provides a theoretical framework to allow educators researchers and policymakers to better understand computer generated writing and the policy and pedagogical implications of generative AI. Generative AI such as ChatGPT and Gemini has substantially disrupted educational spaces forcing educators policymakers and other stakeholders to reconsider writing and how it should be used in education. Responding to this disruption this book provides technically sound guidance on how various stakeholders should engage with generative AI. After providing a foundational and technical discussion of the technology this book directly addresses the educational context. Informed by theories of learning and knowledge transfer and utilizing rhetorical theories of writing this book assesses the impact of AI on student learning student performance and academic honesty and integrity. In doing so the book outlines how generative AI can be both a help and a hindrance for students enabling readers to craft informed and meaningful policies and successfully integrate AI in the composition classroom. This book will be of interest to scholars in the fields of Rhetoric and Composition Technical Writing Communication Studies Linguistics and TESOL as well as to Education and Machine Learning policymakers program directors and researchers.
