Byrhtferth's Enchiridion:

Byrhtferth's Enchiridion Byrhtferth, Byrhtferth of Ramsey, 1995 Byrhtferth of Ramsey was one of the outstanding scholars of the late Anglo Saxon Church the pupil of Abbo of Fleury probably the most learned man in the Europe of his day From Abbo Byrhtferth learned the intricacies of medieval date reckoning computus as well as familiarity with the syllabus of the quadrivium astronomy arithmetic harmony geometry The Enchiridion completed in 1011 is a handbook designed to explain the complexities of computus to young monks in his charge but Byrhtferth digresses widely in discussions of metrics and rhetoric as well as his scientific interests As such it is a work in the forefront of Anglo Saxon scholarship This edition of the Enchiridion supersedes that of S J Crawford published for the Society in 1929 as vol 177 of the Original Series The new edition contains a full introduction describing the nature of Byrhtferth's schooling at Ramsey The text is presented with a facing translation and is followed by a detailed commentary The edition also includes the text of Byrhtferth's Latin treatise on computus which has never been printed before The Latin text is the model for the Enchiridion which cannot be understood without reference to it **Anglo-Saxon England: Volume 25** Michael Lapidge, Malcolm Godden, Simon Keynes, 1997-02-13

This volume brings to light material evidence to further our knowledge of Anglo Saxon England **Key Figures in Medieval Europe** Richard Kenneth Emmerson, Sandra Clayton-Emmerson, 2006 From emperors and queens to artists and world travelers from popes and scholars to saints and heretics Key Figures in Medieval Europe brings together in one volume the most important people who lived in medieval Europe between 500 and 1500 Gathered from the biographical entries from the on going series the Routledge Encyclopedias of the Middle Ages these a z biographical entries discuss the lives of over 600 individuals who have had a historical impact in such areas as politics religion or the arts Individuals from places such as medieval England France Germany Iberia Italy and Scandinavia are included as well as those from the Jewish and Islamic worlds A thematic outline is included that lists people not only by categories but also by regions Entries fall under the following categories Artists Architects Authors Commercial Figures Musicians Political Figures Religious Figures Scientific Figures Travelers Women In one convenient volume students scholars and interested readers will find the biographies of the people whose actions beliefs creations and writings shaped the Middle Ages one of the most fascinating periods of world history *Early Medieval English Life Courses*, 2021-11-22 How did the life course with all its biological social and cultural aspects influence the lives writings and art of the inhabitants of early medieval England This volume explores how phases of human life such as childhood puberty and old age were identified characterized and related in contemporary sources as well as how nonhuman life courses were constructed The multi disciplinary contributions range from analyses of age vocabulary to studies of medicine name giving practices theology Old English poetry and material culture Combined these cultural historical perspectives reveal how the concept and experience of the life course shaped attitudes in early medieval England Contributors are Jo Appleby Debby Banham Darren Barber Caroline R Batten James Chetwood Katherine Cross Amy Faulkner

Byrhtferth of Ramsey Michael Lapidge, 2008-11-28 Byrhtferth of Ramsey was one of the most learned scholars of late Anglo Saxon England and his two saints Lives of Oswald a powerful bishop of Worcester and York in the tenth century d 992 and Ecgbwine the seventh century founder of Evesham are among the most important historical sources for our understanding of late Anglo Saxon England The Life of St Oswald is the longest surviving work of Anglo Saxon hagiography and it is the principal source for much of our knowledge of tenth century England especially the monastic reform movement the role of King Edgar the murder of Edward king and Martyr and the so called anti monastic reaction of which he is the unique witness Much less is known about St Ecgbwine both by us and by Byrhtferth but Byrhtferth's writing has exceptional value once again for the light it throws on tenth century monasticism and the role of King Edgar in this process Both Lives have been printed

only once before in the nineteenth century in editions which are riddled with errors and which have misled scholarship for over a century Neither work has ever been translated into English The present edition includes facing page translations which will make these works accessible to a scholarly audience for the first time Byrhtferth's Latin is unusually idiosyncratic and difficult and was frequently misunderstood by the scribe who copied the unique manuscript in which the Lives are preserved The texts are also accompanied by extensive notes which explain the historical implications and the often impenetrable Latin One of the principal features of the new edition is that corruption in the transmitted text has been emended where necessary based on knowledge of Byrhtferth's Latin style analysed for example in the EETS edition of Byrhtferth's Enchiridion ed Lapidge and Baker in 1994 A new edition of Byrhtferth's two saints Lives has been long awaited and will be indispensable to the study of Anglo Saxon history and literature the texts also throw considerable new light on the archaeology of Anglo Saxon ecclesiastical sites such as York Worcester Ramsey and Evesham Anglo-Saxon England: Volume 27 Malcolm Godden, Michael Lapidge, Simon Keynes, 1999-03-04 The discovery in Sonderhausen of a fragmentary psalter glossed in Latin and Old English allows fresh inferences to be drawn regarding the study of the psalter in Anglo Saxon England and of the transmission of the corpus of vernacular psalter glosses A detailed textual and palaeographical study of the Wearmouth Jarrow bibles leads to the exciting possibility that the hand of Bede can be identified annotating the text of the Bible which he no doubt played an instrumental role in establishing Two Latin texts from the circle of Archbishop Wulfstan are published here in full whilst disciplined philological and historical analysis helps to clarify a puzzling reference in thelbert's law code to the early medieval practice of providing food render for the king Finally the volume contains two pioneering essays in the histoire des mentalit s The usual comprehensive bibliography of the previous year's publications in all branches of Anglo Saxon studies rounds off the book *Anglo-Latin Literature* Michael Lapidge, 2004-10-01 The essays collected in the second volume are concerned principally with the tenth century renaissance of English learning largely in response to the initiatives of a small number of energetic scholars and teachers such as Dunstan and Ethelwold In combination these studies illustrate the idiosyncratic but advanced state of Anglo Saxon learning *Cambrian Medieval Celtic Studies*, 2006 Cambridge Medieval Celtic Studies, 2005 **An Old English Grammar** Eduard Sievers, 1893 An Old English grammar, tr. and ed. by A.S. Gopa Roy Katharine Scarfe Beckett Donald Scragg E G Stanley Louise Sylvester Paul Szarmach Carolingian Connections
Joanna Story, 2003 The Anglo Saxon influence on the Carolingian world has long been recognised by historians of the early medieval period Wilhelm Levison in particular has drawn attention to the importance of the Anglo Saxon contribution to the cultural and ecclesiastical development of Carolingian Francia in the central decades of the eighth century What is much less familiar is the reverse process by which Francia and Carolingian concepts came to influence contemporary Anglo Saxon culture In this book Dr Story offers a major contribution to the subject of medieval cultural exchanges focusing on the degree to which Frankish ideas and concepts were adopted by Anglo Saxon rulers Furthermore by concentrating on the secular context and concepts of secular government as opposed to the more familiar ecclesiastical and missionary focus of Levison's work this book offers a counterweight to the prevailing scholarship providing a much more balanced overview of the subject Through this reassessment based on a close analysis of contemporary manuscripts particularly the Northumbrian sources Dr Story offers a fresh insight into the world of early medieval Europe *Practice in Learning* Rolf H. Bremmer (jr.), Cornelis Dekker, 2010 Throughout the early Middle Ages education and learning in Western Europe underwent a substantial development from Italy across the Alps from Latin to the vernacular and from secular to although not exclusively religious With Latin as its prime medium developments in education and learning were genuinely international and allowed for a steady exchange of teachers and texts across borders and institutions Members of the fifth century Gallo Roman senatorial classes such as Eucherius of Lyons and Cassiodorus became bishops abbots or founders of monasteries and thereby catalysts in the transformation from secular to religious education Then as now intellectuals travelled taking both their learning and their books with them Theodore of Tarsus travelled from the extreme end of the Mediterranean to Italy and across the Alps John Scottus Eriugena migrated from Ireland to France Boniface from England to Germany while Abbo later made a journey from Fleury to Abingdon and back to name only a few examples With the mobility of intellectuals comes the movement of texts and books ranging from Pliny's *Historia naturalis* and Isidore's *Etymologiae* or the works of Bede to many of the smaller texts and fragments which have been the subject of study in the Storehouses project Although almost all of the precise details of classroom practice in the early Middle Ages remain hidden to the modern eye and identifiable students' copy books or note pads are rare some of the texts and books that have survived still recall the monastic auditorium or *schola* because of their potential use in the classroom or in view of the texts found in these books Often these texts and manuscripts testify to the international developments outlined above and to the international nature of the world of early medieval learning The articles in this second volume of *Storehouses of Wholesome Learning* emanate from the second workshop in the project this time held at Leiden in June 2005 They focus on illuminating the multifaceted practice of learning by laying bare the exchanges of scholarship between the British Isles and the continent From the *Development of the Foetus* found in Bremmer's contribution to the *Fifteen Signs of Doomsday* the encyclopaedic knowledge that was disseminated all over Western Europe

in written texts and in all likelihood through oral transmission featured strongly in the practice of early medieval learning
The subject of that learning was nothing less than life itself both in the physical and in the spiritual sense of the word
