Massachusetts Labor Cases Joseph W. Ambash,1998-07 **The Economist** ,1919 Unwanted Evidence of a Corporate Icon Ben Strobe,2014-11-10 The book is mostly about one individual who worked for a large company and found himself on the wrong side of the company s management when corruption was discovered and exposed This took place even though he had worked for and through the company s internal security forces contracted corporate investigator firms and the FBI The book covers all levels and types of industrial crime but concentrates more on executive crime This is because it affects society the most and it falls under the category of near perfect crimes This is because few are ever arrested convicted or do prison time even though they steal billions from all areas of society The Wall Street crash was a prime example and to add insult to injury most got their bonuses on top of what they stole This book continually tries to show its readers by example after example how easy it is for executives to steal billions and never even get questioned forget about being arrested Our criminal system is just not equipped or concerned

about this type of crime The ultimate concept being crime in the executive world really pays big **Scientific and Technical Aerospace Reports** ,1993 **Financial Crisis, Corporate Governance, and Bank Capital** Sanjai Bhagat,2017-03-10 In the aftermath of the 2007 8 crisis senior policymakers and the media have blamed excessive risk taking undertaken by bank executives in response to their compensation incentives for the crisis The inevitable follow up to this was to introduce stronger financial regulation in the hope that better and more ethical behaviour can be induced Despite the honourable intentions of regulation such as the Dodd Frank Act of 2010 it is clear that many big banks are still deemed too big to fail This book argues that by restructuring executive incentive programmes to include only restricted stock and restricted stock options with very long vesting periods and financing banks with considerably more equity the potential of future financial crises can be minimized It will be of great value to corporate executives corporate board members institutional investors and economic policymakers as well as graduate and undergraduate students studying finance economics and law *The Clash of the Cultures* John C. Bogle,2012-07-05 Recommended Reading by Warren Buffet in his March 2013 Letter to Shareholders How speculation has come to dominate investment a hard hitting look from the creator of the first index fund Over the course of his sixty year career in the mutual fund industry Vanguard Group founder John C Bogle has witnessed a massive shift in the culture of the financial sector The prudent value adding culture of long term investment has been crowded out by an aggressive value destroying culture of short term speculation Mr Bogle has not been merely an eye witness to these changes but one of the financial sector s most active participants In *The Clash of the Cultures* he urges a return to the common sense principles of long term investing Provocative and refreshingly candid this book discusses Mr Bogle s views on the changing culture in the mutual fund industry how speculation has invaded our national retirement system the failure of our institutional money managers to effectively participate in corporate governance and the need for a federal standard of fiduciary duty Mr Bogle recounts the history of the index mutual fund how he created it and how exchange traded index funds have altered its original concept of long term investing He also presents a first hand history of Wellington Fund a real world case study on the success of investment and the failure of speculation The book concludes with ten simple rules that will help investors meet their financial goals Here he presents a common sense strategy that may not be the best strategy ever devised But the number of strategies that are worse is infinite *The Clash of the Cultures* Investment vs Speculation completes the trilogy of best selling books beginning with Bogle on Investing The First 50 Years 2001 and Don t Count on It 2011 **Surveyor and Municipal and County Engineer** ,1904 *The CEO's Unexpected Proposal* Karen Rose Smith,2012-06-19 After losing his wife in a tragic accident successful businessman Dawson Barrett was determined to help his son Luke who was dealing with his pain by acting out at school and at home Luckily the devoted dad knew just who to call As talented as she was beautiful music therapist Mikala Conti could work miracles To her the real miracle was that Dawson the boy who d once stirred her teenage heart then vanished was back in town Still Mikala

wasn't sure Dawson was ready to move on And she certainly didn't believe that one reckless moment of passion could change their lives forever But it might just be the way to heal three troubled souls searching for a second chance at a forever family
