Charles Rose, Architect Charles Rose, 2006 Rose's architecture is characterised by warm natural materials particularly wood that reflect his ecological sensitivity and attention to sustainability in buildings This book presents ten of his award winning institutional commercial and residential buildings *Paperbound Book Guide for Colleges*, 1972 *Competing for Excellence in Architecture* Jean-Pierre Chupin, 2017-10-01 A travel guide for those in search of architectural quality this book can be browsed in many ways Written in a clear and concise manner by about thirty authors it features a collection of editorials from the Canadian Competitions Catalogue CCC a large online digital archive open to the public since 2006 The editorials explore more than sixty Canadian architecture competitions held in the last seventy years Especially in recent years both public and private institutions have organized competitions across Canada producing hundreds of architectural urban planning and landscape design projects Together these proposals most of which remain unbuilt constitute a fantastic treasure in our tangible and intangible common heritage Given that competition organizers designers juries and critics never operate alone there is no doubt whatsoever that this book results from the collaboration of a myriad of people contributing to and competing for excellence in architecture Includes 497 illustrations and analytical tables *The American Catalogue*, 1890 *SR 25 Hoosier Heartland Highway from Interstate 65 Interchange to US 24, Tippecanoe, Carroll and Cass Counties*, 2004 *Archive* Matthias Sauerbruch, Louisa Hutton, 2006 This compendium offers a new insight into the work of Sauerbruch Hutton The development of their architectural thinking can be traced completely from the texts of the architects the considerable number of unimplemented designs and realized or under construction projects such as the GSW headquarters in Berlin the Federal Environment Agency in Dessau or the Museum for the Brandhorst Collection in Munich On one hand the book provides a far reaching overview and on the other hand it makes clear how each project was individually developed out of its structural and social context and how the respective forms emerge from functional technical spatial and sculptural considerations The book reveals how Sauerbruch Hutton understands their work as a process of continuous research In doing so the focus of sustainability repeatedly appears throughout the book as an integral part of their interest In addition the architects have developed their own language which is recognizable by the spatial use of color and material as well as their organic corporeality *Plumbing* Nadir Lahiji, Daniel S. Friedman, 1997 One of the fundamental tenets of modernism was its image of hygiene its ideal of bringing cleanliness and order to the great unwashed as evident in Adolf Loos's 1898 article *Plumbers* Using Loos as a point of departure the essays in this collection examine architecture through the multiple meanings inherent in plumbing from the pipes of modern hygiene to the plumb line of the right angle to Marcel Duchamp's Ready made urinal **The SAR Guide to Contemporary Swedish Architecture, 1968-78** Svenska arkitekters riksförbund, 1978 *Corporate Technology Directory*, 1986 **A Reader's Guide to Contemporary Literature** William Swan Sonnenschein, 1895 **Architect**, 2007-07 *Films and Other Materials for Projection* Library of
