Cacus and Marsyas in Etrusco-Roman Legend Jocelyn Penny Small,1982      **Cacus and Marsyas in Etrusco-Roman Legend. (PMAA-44), Volume 44** Jocelyn Penny Small,2014-07-14 This book discusses how Greek and South Italian vase paintings of the musical contest between Apollo and Marsyas became the model for Etruscan representations of Cacus ambushed by the Vibennae brothers two Etruscan heroes of the sixth century B C The study demonstrates that the Etruscans knowingly adapted Greek iconographic forms to represent their own legends Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      The Reception of the Homeric Hymns Andrew Faulkner,Athanassios Vergados,Andreas Schwab,2016-11-17 The Reception of the Homeric Hymns is a collection of original essays exploring the reception of the Homeric Hymns and other early hexameter poems in the literature and scholarship of the first century BC and beyond Although much work has been done on the Hymns over the past few decades and despite their importance within the Western literary tradition their influence on authors after the fourth century BC has so far received relatively little attention and there remains much to explore particularly in the area of their reception in later Greco Roman literature and art This volume aims to address this gap in scholarship by discussing a variety of Latin and Greek texts and authors across the late Hellenistic Imperial and Late Antique periods including studies of major Latin authors such as Virgil Horace and Ovid and Byzantine authors writing in classicizing verse While much of the book deals with classical reception of the Hymns including looking beyond the textual realm to their influence on art the editors and contributors have extended its scope to include discussion of Italian literature of the fifteenth century German scholarship of the nineteenth century and the English Romantic poets demonstrating the enduring legacy of the Homeric Hymns in the literary world      **Greek Myth and Western Art** Karl Kilinski,2013 This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present Tracing the emergence survival and transformation of key mythological figures and motifs from ancient Greece through the modern era it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed      Cultural Identity in the Ancient Mediterranean Erich S. Gruen,2011 Cultural identity in the classical world is explored from a variety of angles      Thomas Heywood's Theatre, 15991639 Richard Rowland,2016-12-05 In this major reassessment of his subject Richard Rowland restores Thomas Heywood playwright miscellanist and translator to his rightful place in early modern theatre history Rowland contextualizes and historicizes this important contemporary of Shakespeare locating him on the geographic and cultural map of London through the business

Heywood conducts in his writing Arguing that Heywood's theatrical output deserves the same attention and study that has been directed towards Shakespeare Jonson and more recently Middleton this book looks at three periods of Heywood's creativity the end of the Elizabethan era and the beginning of the Jacobean the mid 1620s and the mid to late 1630s By locating the works of those years precisely in the political and cultural conflicts to which they respond Rowland initiates a major reassessment of the remarkable achievements of this playwright Rowland also pays attention to Heywood in performance seeing this writer as a jobbing playwright working in an industry that depended on making writing work Finally the author explores how Heywood participated in the civic life of London in his writings beyond the playhouse Here Rowland examines pamphlets translations and the sequence of lord mayor's pageants that Heywood produced as the political crisis deepened Offering close readings of Heywood that establish the range quality and theatrical significance of the writing Thomas Heywood's Theatre 1599 1639 fits a fascinating piece into the emerging picture of the complete early modern English theatre

**Playing with Time** Carole Elizabeth Newlands, 1995 Ovid's *Fasti* unlike his *Metamorphoses* is anchored in Rome religion history and legend monuments and character The poem interprets the Augustan period not as a golden age of peace and prosperity Carole E Newlands asserts but as an age of experimentation negotiation compromise and unresolved tensions Newlands maintains that despite the *Fasti*'s basic adherence to the format of the calendar the text is carefully constructed to reflect the tensions within its subject the new Roman year Ovid plays with the calendar Through the alteration or omission of significant dates through skilled juxtapositions through multiple narrators and the development of an increasingly unreliable authorial persona Ovid opens to a critical and often humorous scrutiny the political ideology of the calendar By adding astronomical observations and aetiological explanations for certain constellations Newlands says Ovid introduced the richly allusive world of Greek mythology to the calendar Newlands restores the poem to a position of importance one displaying Ovid's wit and intellect at its best The incompleteness of the *Fasti* she adds is a comment on the discord that characterized Augustus' later years and led to enforced silences *Aretino's Satyr* Raymond B.

Waddington, 2004-01-01 Pietro Aretino's literary influence was felt throughout most of Europe during the sixteenth century yet English language criticism of this writer's work and persona has hitherto been sparse Raymond B Waddington's study redresses this oversight drawing together literary and visual arts criticism in its examination of Aretino's carefully cultivated scandalous persona a persona created through his writings his behaviour and through a wide variety of visual arts and crafts In the Renaissance it was believed that satire originated from satyrs The satirist Aretino promoted himself as a satyr the natural being whose sexuality guarantees its truthfulness Waddington shows how Aretino's own construction of his public identity came to eclipse the value of his writings causing him to be denigrated as a pornographer and blackmailer Arguing that Aretino's deployment of an artistic network for self promotional ends was so successful that for a period his face was possibly the most famous in Western Europe Waddington also defends Aretino describing his involvement in the larger

sphere of the production and promotion of the visual arts of the period Aretino's Satyr is richly illustrated with examples of the visual media used by the writer to create his persona These include portraits by major artists and *arti minori* engravings portrait medals and woodcuts

**Guide to Research in Classical Art and Mythology** Frances Dodds Van Keuren, 1991 Learning to use the research tools to unravel the intricate terminology of classification of antiquities is a formidable task Van Keuren's work aims to enable students both to use these tools and to devise projects for their own research After a major reference is presented handbooks and monographs are successively identified in ways that suggest patterns of information These patterns will allow students to formulate hypotheses to undertake original research With use of the library collection original questions can be asked and answered

*The Interpretation of Roman Poetry* Karl Galinsky, 1992 In this thought provoking volume fifteen well known scholars from the U S and Europe focus on the current state of the interpretation of Roman poetry and on its future tasks Among the timely subjects they discuss is the role of theory genre and historicism and the survival of the New Criticism The strengths and limitations of a variety of approaches are considered debated and illustrated with the interpretation of specific examples from Roman poetry A recurring theme is the need for increased methodological reflection The Introduction assesses the present state of the interpretation of Roman poetry on the contemporary scene of literary criticism Contributors include G B Conte Charles Segal Francis Cairns Jasper Griffin Michael von Albrecht and W R Johnson
