Caesar Augustus Seven Aspects:

Caesar Augustus Fergus Millar, Erich Segal, 2002 **Dionysius and The History of Archaic Rome** Emilio Gabba, 1991

In *The History of Archaic Rome* Dionysius purposely viewed Roman history as an embodiment of all that was best in Greek culture Gabba places Dionysius's remarkable thesis in its cultural context comparing this author with other ancient historians and evaluating Dionysius's treatment of his sources In truth the last decades B C made the historian's task an enormous challenge On the one hand the ancient writers knew Rome to be the greatest empire the world had seen seemingly impregnable in military power and still capable of expansion On the other hand they were acutely aware that it recently had barely survived half a century of civil strife Gabba recalls to us how little was confidently known of Rome's actual origins in an illuminating examination of Dionysius's methodology as a historian **Ancient Greece and Rome** Keith Hopwood, 1995

Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally *Kill Caesar!* Rose Mary Sheldon, 2023-06-14

Why were Rome's first emperors the good the bad and the ugly so vulnerable to conspiracies and assassination an expert analysis compelling Adrienne Mayor author of *The Poison King* *The Life and Legend of Mithradates* and *Rome's Deadliest Enemy* Exploring the history of internal security under the first Roman dynasty this groundbreaking book answers the enduring question If there were 9 000 men guarding the emperor how were three quarters of Rome's leaders assassinated Rose Mary Sheldon traces the evolution of internal security mechanisms under the Julio Claudians evaluating the system that Augustus first developed to protect the imperial family and the stability of his dynasty Yet in spite of the intensive precautions taken there were multiple attempts on his life Like all emperors Augustus had a number of competing constituencies the senate the army his extended family the provincials and the populace of Rome but were they all equally threatening Indeed the biggest threat would come from those closest to the emperor his family and the aristocracy Even Roman imperial women were deeply involved in instigating regime change By the fourth emperor Caligula the Praetorian Guards were already participating in assassinations and the army too was becoming more politicized Sheldon weighs the accuracy of ancient sources Does the image of the emperor presented to us represent reality or what the people who killed him wanted us to think Were Caligula and Nero really crazy or did senatorial

historians portray them that way to justify their murder Was Claudius really the fool found drooling behind a curtain and made emperor or was he in on the plot from the beginning These and other fascinating questions are answered as Sheldon concludes that the repeated problem of killing Caesar reflected the empire's larger dynamics and turmoil

i A Brief History of an English Literature: An Augustan Age Rakesh Rathod (MA English),2019-01-01 The eighteenth century in English literature has been called the Augustan Age the Neoclassical Age and the Age of Reason The term the Augustan Age comes from the self-conscious imitation of the original Augustan writers Virgil and Horace by many of the writers of the period Specifically the Augustan Age was the period after the Restoration era to the death of Alexander Pope 1690 1744 The major writers of the age were Pope and John Dryden in poetry and Jonathan Swift and Joseph Addison in prose Dryden forms the link between Restoration and Augustan literature although he wrote ribald comedies in the Restoration vein his verse satires were highly admired by the generation of poets who followed him and his writings on literature were very much in a neoclassical spirit I particularly aimed at interpretation of sociopolitical milieu of Augustan Age of social change of literary tendencies of the age and of prose novel poetry and drama of the Augustan Age

Transactions of the American Philological Association American Philological Association,2006 **Greek Historiography** Simon Hornblower,1994 The ancient Greek achievement in the writing of history has set the standard but the nature of this achievement is looking increasingly problematic in the light of recent work on such topics as literacy orality rhetoric narrative technique and the invention of tradition This book contributes to the understanding of both the achievement and the problems of Greek historiography in a series of contributions by a group of distinguished scholars The introduction by the editor traces the story of Greek historiography from archaic times to imperial Rome and then discusses the intertextual relationship of the Greek historians to each other and to other kinds of discourse The first contributor writes on historical explanation from Hecataeus to Polybius and this is followed by contributions on Herodotus Thucydides Theophrastus and Diodorus of Sicily with further essays on the tradition about the First Sacred War and on the Persian War theme in the Roman Empire

Urban Centers and Rural Contexts in Late Antiquity Thomas S. Burns,Thomas Samuel Burns,John W. Eadie,2001-02-28 The essays in this volume reevaluate the cities and towns of the Empire as centers of habitation rather than archaeological museums and reconsider the evidence of continuous and pervasive cultural change across the countryside
