Links From the Foreword This book was designed to provide and encourage practitioner s development and use of critical
drug information evaluation skills through a deeper understanding of the foundational principles of study design and
statistical methods Because guidance on how a study s limited findings should not be used is rare practitioners must
understand and evaluate for themselves the veracity and implications of the inherently limited primary literature findings
they use as sources of drug information to make evidence based decisions together with their patients The editors organized
the book into three supporting sections to meet their pedagogical goals and address practitioners needs in translating

research into practice Thanks to the editors authors and content of this book you can now be more prepared than ever before for translating research into practice L Douglas Ried PhD FAPhA Editor in Chief Emeritus Journal of the American Pharmacists Association Professor and Associate Dean for Academic Affairs College of Pharmacy University of Texas at Tyler Tyler Texas
