## Cp Snow:

**C. P. Snow and the Struggle of Modernity** John de la Mothe, 2013-09-06 The condition of modernity springs from that tension between science and the humanities that had its roots in the Enlightenment but reached its full flowering with the rise of twentieth century technology It manifests itself most notably in the crisis of individuality that is generated by the nexus of science literature and politics one that challenges each of us to find a way of balancing our personal identities between our public and private selves in an otherwise estranging world This challenge which can only be expressed as the struggle of modernity perhaps finds no better expression than in C P Snow In his career as novelist scientist and civil servant C P Snow 1905 1980 attempted to bridge the disparate worlds of modern science and the humanities While Snow is often regarded as a late Victorian liberal who has little to say about the modernist period in which he lived and wrote de la Mothe challenges this judgment reassessing Snow s place in twentieth century thought He argues that Snow s life and writings most notably his *Strangers and Brothers* sequence of novels and his provocative thesis in *The Two Cultures and the Scientific Revolution* reflect a persistent struggle with the nature of modernity They manifest Snow s belief that science and technology were at the center of modern life **The World of C.P. Snow** Robert Greacen, 1963 **The Two Cultures** C. P.

Snow, 1993-07-30 The notion that our society its education system and its intellectual life is characterised by a split between two cultures the arts or humanities on one hand and the sciences on the other has a long history But it was C P Snow s Rede lecture of 1959 that brought it to prominence and began a public debate that is still raging in the media today This 50th anniversary printing of *The Two Cultures* and its successor piece *A Second Look* in which Snow responded to the controversy four years later features an introduction by Stefan Collini charting the history and context of the debate its implications and its afterlife The importance of science and technology in policy run largely by non scientists the future for education and research and the problem of fragmentation threatening hopes for a common culture are just some of the subjects discussed

*The Novels of C. P. Snow* Suguna Ramanathan, 1978 **C.P. Snow** N. Tredell, 2012-09-24 Novelist and cultural commentator C P Snow was a large and controversial presence in his lifetime but his work has been largely neglected since his death in 1980 This is the first 21st century book to offer a clear informed and sympathetic survey of all his novels and major non fiction books and to affirm their importance for the world today **C.P. Snow. [With a Portrait.]**, 1959 C.

**Modernity** John de la Mothe, 2011-02-15 The condition of modernity springs from that tension between science and the humanities that had its roots in the Enlightenment but reached its full flowering with the rise of twentieth century technology It manifests itself most notably in the crisis of individuality that is generated by the nexus of science literature and politics one that challenges each of us to find a way of balancing our personal identities between our public and private selves in an

otherwise estranging world This challenge which can only be expressed as the struggle of modernity perhaps finds no better expression than in C P Snow In his career as novelist scientist and civil servant C P Snow 1905 1980 attempted to bridge the disparate worlds of modern science and the humanities While Snow is often regarded as a late Victorian liberal who has little to say about the modernist period in which he lived and wrote de la Mothe challenges this judgment reassessing Snow s place in twentieth century thought He argues that Snow s life and writings most notably his *Strangers and Brothers* sequence of novels and his provocative thesis in *The Two Cultures and the Scientific Revolution* reflect a persistent struggle with the nature of modernity They manifest Snow s belief that science and technology were at the center of modern life

**Time of Hope** C. P. Snow, 2008-09-23 *Time of Hope* is the third in the *Strangers and Brothers* series and tells the story of Lewis Eliot s early life As a child he is faced with his father s bankruptcy As a young man he finds his career at the Bar hindered by a neurotic wife Separation from her is impossible however *Last Things* C. P. Snow, 2008-10-11 The last in the *Strangers and Brothers* series has Sir Lewis Eliot s heart stop briefly during an operation During recovery he passes judgement on his achievements and dreams Concerns fall from him leaving only ironic tolerance His son Charles takes up his father s burdens and like his father he is involved in the struggles of class and wealth but he challenges the Establishment risking his future in political activities **C.P. Snow, an Oral Biography** John Halperin, Charles Percy Snow, Pamela

Hansford Johnson, 1983 *THE TWO CULTURES: AND A SECOND LOOK* C.P. SNOW, 1963 **C. P. Snow, a Bibliography** Paul W. Boytinck, 1977 *C. P. Snow* Frederick Robert Karl, 1963 Critical examination of the ideas and art of C P Snow as a novelist *The World of C.P. Snow* Robert Greacen, 1962 *Two Cultures?* F. R. Leavis, 2013-08-29 In this first annotated edition of F R Leavis famous critique of C P Snow s influential argument about the two cultures Stefan Collini reappraises both its literary tactics and its purpose as cultural criticism The edition will enable new generations of readers to understand what was at stake in the dispute and to appreciate the enduring relevance of Leavis s attack on the goal of economic growth In his comprehensive introduction Collini situates Leavis s critique within the wider context of debates about modernity and prosperity not just the two cultures of literature and science Collini emphasizes the difficulties faced by the cultural critic in challenging widely held views and offers an illuminating analysis of Leavis s style The edition provides full notes to references and allusions in Leavis s texts C. P. Snow Paul W. Boytinck, 1980
