Sales promotion techniques or SPTs are a common facet of consumer life with many companies offering price reductions bonuses or other deals in order to attract or retain customers Although VAT on advertising costs is in principle fully deductible problems frequently arise when products are supplied as part of a sales promotion This book provides the first in depth investigation of the extent to which the current VAT treatment in the EU of the various SPTs corresponds to the core properties of the VAT with particular attention to the so called neutrality principle With nuanced precision the author catalogs the SPTs commonly used in practice Then revealing serious inconsistencies among the relevant rulings of the European Court of Justice she goes on to propose specific amendments to the VAT Directive Focusing on the importance for VAT of determining the presence of an SPT she thoroughly analyzes such aspects of the VAT SPT relationship as the following What are the key considerations for effectively determining whether the supply of a benefit upon fulfillment of a certain condition by a customer constitutes an SPT or a barter To what extent are the VAT consequences of the use of SPTs compliant with the principle of neutrality What distinguishes the VAT treatment of an SPT whereby a sales promotor both finances and supplies a benefit from that of an SPT whereby a sales promotor finances but does not himself supply a benefit What legislative changes can be made in order to reach a more ideal and clear VAT treatment of SPTs in the EU Not only considering the principle of neutrality but also the other key features and principles of EU VAT The research is conducted mainly through a review of European legislation policy documents and CJEU case law and the Belgian interpretation thereof Where room is left for different interpretations some viewpoints of EU VAT in the Netherlands and the United Kingdom as well as in the corresponding system of New Zealand are considered With the finely tuned analysis presented in this book practitioners can ensure an appropriate argumentation on the VAT treatment of SPTs with national tax authorities or before courts As the first overall study on the VAT treatment of SPTs clearly discussing the issues and legislative gaps and making concrete suggestions for future legislation it is sure to be welcomed also by academics and EU policymakers      "Code of Massachusetts regulations, 1995" ,1995 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020      RAYMOND C.
