International Law's Objects Jessie Hohmann, Daniel Joyce, 2018-12-20 International law's rich existence in the world can be illuminated by its objects. International law is often developed, conveyed, and authorized through its objects and/or their representation. From the symbolic regalia of the head of state and the symbols of sovereignty to the mundane a can of dolphin safe tuna certified as complying with international trade standards, international legal authority can be found in the objects around us. Similarly, the practice of international law often relies on material objects or their image both as evidence: satellite images, bones of the victims of mass atrocities, and to found authority for instance maps and charts. This volume considers these questions: firstly, what might the study of international law through objects reveal? What might objects rather than texts tell us about sources, recognition of states, construction of territory, law of the sea, or international human rights law? Secondly, what might this scholarly undertaking reveal about the objects as aims or projects of international law? How do objects reveal or perhaps mask these aims, and what does this tell us about the reasons some physical or material objects are foregrounded and others hidden or ignored? Thirdly, what objects, icons, and symbols preoccupy the profession and academy? The personal selection of these objects by leading and emerging scholars worldwide will illuminate the contemporary and historical fascinations of international lawyers. As a result, the volume will be an important artefact itself, an object in its own right, capturing the mood of international law in a given moment and providing opportunity for reflection on these preoccupations. By considering international law in the context of its material culture, the authors offer a new theoretical perspective on the subject.

Everyday eBay Ken Hillis, Michael Petit, Nathan Scott Epley, 2012-12-06 Everyday eBay is the first scholarly analysis of the internet marketplace that has become a global social, cultural, and economic phenomenon. The eighteen new and classic essays gathered here examine eBay from a wide variety of perspectives: as a bellwether of taste and material culture; as a rich site of cultural, racial, and sexual discourse and practice; as an emergent media form; and as a facilitator of global consumerism. From old toys steeped in nostalgia to rare limited edition shoes, the contributors demonstrate that value on eBay is never simply about price. On any given day, more than two million items are listed for sale on eBay, from everyday objects to kitsch and collectibles to the truly bizarre. Since its debut ten years ago, eBay has quickly become a central destination for millions of web browsers. According to eBay itself, up to 165,000 Americans now make their living by selling through the website, and other business analysts project that hundreds of thousands of individuals worldwide now make their living through eBay.

The Cabinet of Curiosities Douglas J. Preston, Lincoln Preston, Lincoln Child, 2003 From the New York Times bestselling author of *The Relic* comes a spellbinding new novel blending adventure, science, and nail-biting suspense. In downtown Manhattan, a gruesome discovery has just been made: an underground charnel house containing the bones of dozens of murder victims. Research reveals that a serial killer

was at work in New York's notorious Five Points neighbourhood in the 1880s bent on prolonging his lifespan by any means. When a newspaper story on the old murders appears to ignite a new series of horrifyingly similar killings, panic overtakes the city. On the case are FBI Special Agent Pendergast, Southern pale refined unorthodox, possessed of a Holmes-like brain and possibly the most engaging investigator in modern popular fiction, dogged NYT reporter William Smithback Jr and his erstwhile girlfriend Dr Nora Kelly, an archaeologist at the New York Museum of Natural History. Using every resource available, they join forces to track down the killer, for they become the next victims. [Unraveling Ariadne's Thread](#) Dominic W. René Magritte Patricia Allmer, 2009. René Magritte offers a rethinking of Magritte's art from a position informed by contemporary developments in art theory. The book employs a wide range of literary and philosophical/cultural/theoretical frameworks to analyze Magritte's art. It offers close readings of specific images, paying attention to neglected aspects of Magritte's work, discussing the significance of cabinets of curiosities and encyclopedias, trompe l'oeil, framing and forgeries. It addresses a range of intertextual relations between Magritte's work and that of other Surrealist artists and the art historical tradition. This highly readable text explores how Magritte's art challenges conventional notions of originality, canonicity and coherence, revealing his work as being shaped by co-operations and co-options. It demonstrates that uncertainty, incoherence and negation lie at the core of Magritte's oeuvre. **A Medieval Cabinet of Curiosities** Lorris Chevalier, 2025-07-15. A carefully curated collection of sixty medieval objects from the marvellous to the bizarre is explored and accompanied by captivating pen and ink drawings. **Museums, Their History and Their Use** David Murray, 1904
