France and the Coming of the Second World War, 1936-1939 Anthony Adamthwaite, 2021-12-16 First published in 1977 France and the Coming of the Second World War investigates the policies that led to the collapse of French power The book argues that this collapse was the result of social political and economic troubles that buffeted French leaders It uses a wealth of documents to explore common debates such as Britain's culpability

for France's inability to prevent Germany's reoccupation of the Rhineland. It also puts forward the threat of Italy and the Mediterranean as France's main preoccupation rather than Germany and central Europe. France and the Coming of the Second World War uses an extensive range of archival material and includes the private papers of Daladier, Bonnet and a number of other prominent figures. It will appeal to those with an interest in the history of the Second World War, political history and social history.

The Sketch, 1904 **Small Press Record of Books in Print**, 1992 **Winston S. Churchill: Road to Victory, 1941-1945** Martin Gilbert, 2015-04-06

The seventh volume of the acclaimed official biography. An engrossing history of Churchill's crucial role in the grand alliance of World War II. Los Angeles Times. This seventh volume in the epic multivolume biography of Winston S. Churchill takes up the story of Churchill's War with the Japanese attack on Pearl Harbor on December 7, 1941 and carries it on to the triumph of V-E Day, May 8, 1945, the end of the war in Europe. Acclaimed historian Martin Gilbert charts Churchill's course through the storms of Anglo-American and Anglo-Soviet rivalry and between the conflicting ambitions of other forces embattled against the common enemy: between General de Gaulle, his compatriots in France and the French Empire; between Tito and other Yugoslav leaders; between the Greek Communists and monarchists; between the Polish government exiled in London and the Soviet-controlled Lublin Poles. Amid all these volatile concerns, Churchill had to find the path of prudence of British national interest and above all of the earliest possible victory over Nazism. In doing so, he was guided by the most secret sources of British Intelligence: the daily interception of the messages of the German High Command. These pages reveal as never before the links between this secret information and the resulting moves and successes achieved by the Allies. A milestone, a monument, a magisterial achievement rightly regarded as the most comprehensive life ever written of any age. Andrew Roberts, historian and author of *The Storm of War*. The most scholarly study of Churchill in war and peace ever written. Herbert Mitgang, *The New York Times*.

The Life of Cavour Edward Cecil George Cadogan, Sir Edward Cadogan, 1907 **The Memoirs of Lord Gladwyn** Hubert Miles Gladwyn Jebb, Baron Gladwyn, 1972 **Who's who** Henry Robert Addison, Charles Henry Oakes, William John Lawson, Douglas Brooke, Wheelton Sladen, 1906

An annual biographical dictionary with which is incorporated Men and women of the time.

The Illustrated sporting & dramatic news, 1879 *European Neutrals and Non-Belligerents During the Second World War* Neville Wylie, 2002

This collection provides a comprehensive English language survey of the conduct of neutral and non-belligerent states during the war. Instead of narrowly focusing on the few neutrals that survived the war intact, the volume broadens our understanding of neutrality by including chapters on non-belligerents and those neutrals of south-east Europe such as Romania and Yugoslavia. The essays focus on how individual neutral governments perceived international developments and throw light on the domestic political circumstances that critically affected their response to the course of the war. They therefore provide the political context that has been overlooked in controversies surrounding their humanitarian and financial activities. While based on the author's own research, the essays draw widely on

secondary literature and provide invaluable analytical introductions to the large amount of historical writing on these countries The Publishers Weekly ,2004 **The British National Bibliography** Arthur James Wells,1995
