created by the author which somehow looks similar to Connect 4 However instead of a rectangular shape a diamond shape is used and new rules are developed Hence the game becomes more complex and challenging In addition different grid sizes are presented to raise difficulty levels This book includes 500 Puzzles The first section is designed for only 2 players while the second is suitable for 3 players Finally the last one is for 4 players The book starts with the easiest levels and ends with the hardest and most challenging levels The game is formed by a grid that contains at least one filled box which cannot be used by the players while Connect 4 does not have any filled boxes This new variation creates additional challenges for players Therefore new strategies and methods should be developed to win the game People who love brain games and social games and who want to improve their intelligence concentration memory reflection speed etc are invited to try this new game and provide their comments and suggestions to the author LET S TRY SOMETHING NEW AND CHALLENGING
