Strategies in Teacher Education explores the landscape of AI in training and supporting educators. The book serves educators seeking insights into effective utilization of AI in a professional setting and the integration of AI in teaching practices. This book covers topics such as educational technologies, higher education, and diversity and equity, and is a useful resource for academicians, teachers, professors, education professionals, data scientists, computer engineers, and researchers. *Optimizing Research Techniques and Learning Strategies With Digital Technologies* Basha, J. Sadhik, Alade, Taofeek Olanrewaju, Al Khazimi, Mitha Obaid Amur, Vasudevan, Ranjit, Khan, Jahanzeb Bahadur, 2025-02-21. The widespread integration of digital technologies to improve research methodology and educational experiences heralds a transformative period in learning and education known as the Digital Renaissance. This era marks a break from conventional approaches to education and research, embracing digital technologies and platforms to completely transform the creation, sharing, and access of knowledge. The main goal of the Digital Renaissance's enhanced learning strategies is to transform education by using digital tools and technologies to give students individualized, dynamic, and exciting learning opportunities. The convergence of technology and education is becoming more and more important as societies learn to handle the challenges of the digital age. *Optimizing Research Techniques and Learning Strategies With Digital Technologies* focuses on improving learning strategies, making learning strategies more accessible, and advancing academic pursuits in a variety of fields. It emphasizes pushing boundaries in the pursuit of knowledge and discovery while stressing the significance of using technology in research and teaching in an ethical and responsible manner. Covering topics such as competency development, educational leadership, and economic growth, this book is an excellent resource for teachers, curriculum developers, education administrators, corporate trainers, technologists, professionals, researchers, scholars, academicians, and more. **Technology-mediated Learning During the Pandemic** Jitendra Singh, Vikas Kumar, 2024-06-21. This volume discusses the emergence of information and communication technology (ICT)-based teaching and learning during the Covid-19 pandemic as a potential alternative to traditional classroom-based learning. It presents a collection of theories, practices, and case studies from across the globe and covers different aspects of education from a multidisciplinary perspective. While focusing on the various opportunities that surfaced while carrying out innovative experiments in the online learning space, the book discusses pedagogical challenges and the need for a shift in teaching pedagogy towards online learning. It outlines the existing learning theories, reasons behind their failure, and new theories that emerged to fill the need for new methods for delivery of content and pedagogy. The book discusses the issues faced by stakeholders, including institute administrators, students, and teachers, to prepare for this new method of teaching and learning. It highlights the role of virtual laboratories in supplementing the needs of students in the remote learning environment. The book also discusses the role and impact of social media as a powerful tool of learning and educational communication. This book will be of interest to teachers, students, and researchers of education, higher education, digital education, information technology, educational psychology, and media studies. It will also be useful for courses on e
