Adjunct Faculty in Online Higher Education: Best Practices for Teaching Adult Learners Tarbutton, Tanya McGlashing, Doyle, Lori Beth, 2024-01-22 Adjunct Faculty in Online Higher Education Best Practices for Teaching Adult Learners is an essential handbook that delves into the pivotal role of adjunct faculty instructors in the booming realm of online higher education with a specific focus on adult learners As the demand for online education continues to soar administrators program directors and adjunct faculty instructors alike are presented with unique challenges and opportunities This comprehensive guidebook provides a wealth of knowledge and best practices for adjunct faculty instructors seeking to excel in online teaching roles With a keen understanding of the competitive nature of the field this book equips instructors with valuable insights that will set them apart in the ever expanding landscape of higher education University administrators and program directors will also find immense value in the book's content which explores strategies for providing professional development to adjunct faculty and designing effective evaluations to support continuous improvement Recognizing the paramount importance of the student experience the book emphasizes the crucial role played by adjunct faculty in representing their respective institutions Covering a wide range of topics from the historical context of adult learners to the challenges associated with being an adjunct instructor this handbook serves as a comprehensive guide for both aspiring and experienced adjunct faculty members It offers practical advice on curriculum design personnel development and evaluation methods empowering administrators and directors alike to make informed decisions in hiring and supporting adjunct faculty instructors

Foundations of Education Leslie S. Kaplan, William A. Owings, 2021-09-09 Now published by SAGE A modern and comprehensive introduction to the field Foundations of Education makes core topics in education accessible and personally meaningful to students pursuing a career within the education profession In a clear and direct prose authors Leslie S Kaplan and William A Owings offer readers the breadth of coverage scholarly depth and conceptual analysis of contemporary issues that will help them gain a realistic and insightful perspective of the field In

addition to classic coverage of foundational topics such as educational philosophy history reform law and finance the newly revised Third Edition features a special emphasis on social justice issues considers key debates around today s education trends and underscores the theory and practice behind meeting the needs of all learners This title is accompanied by a complete teaching and learning package **Artificial Intelligence and Society** Dr. R. B. Konda, Dr. Mahesh M. Ganwar, Prof. Kaveri Kori, Dr. Hanmanthappa Sedamkar, Dr. Manikamma S., Dr. Saibanna. & Dr. Mitradevi Halimani, 2024-11-08 The integration of AI powered e gamified modules in education has significantly impacted students scientific attitudes and academic achievement in science This study investigates how AI driven gamification enhances engagement critical thinking and problem solving skills leading to improved academic performance AI enables personalized learning experiences by adapting to individual student needs thus fostering a more interactive and learner centered approach E gamified modules provide immediate feedback motivating students to correct errors and reinforce learning The main aim of the study is to find out whether there is any significant difference between pre test post test mean scores of secondary school students taught with and without AI powered e gamified modules in science 80 Samples were chosen by employing purposive sampling technique The researcher has used standardized PhET simulation modules The results show that the post test mean scores of the experimental group are significantly different than that of the control group The study suggests that when students are exposed to AI powered gamified learning environments they develop a more positive disposition toward scientific methods and show measurable improvements in performance This research highlights the potential of AI in transforming traditional education by making learning more dynamic personalized and effective thereby fostering a deeper understanding of science and its applications Technology-mediated Learning During the Pandemic Jitendra Singh, Vikas Kumar, 2024-06-21 This volume discusses the emergence of information and communication technology ICT based teaching and learning during the Covid 19 pandemic as a potential alternative to traditional classroom based learning It presents a collection of theories practices and case studies from across the globe and covers different aspects of education from a multidisciplinary perspective While focusing on the various opportunities that surfaced while carrying out innovative experiments in the online learning space the book discusses pedagogical challenges and the need for a shift in teaching pedagogy towards online learning It outlines the existing learning theories reasons behind their failure and new theories that emerged to fill the need for new methods for delivery of content and pedagogy The book discusses the issues faced by stakeholders including institute administrators students and teachers to prepare for this new method of teaching and learning It highlights the role of virtual laboratories in supplementing the needs of students in the remote learning environment The book also discusses the role and impact of social media as a powerful tool of learning and educational communication This book will be of interest to teachers students and researchers of education higher education digital education information technology educational psychology and media studies It will also be useful for courses on e learning educationalists policymakers educational institutions online
