Law, Ewa Luger, Morten Goodwin, Petter Bae Brandtzaeg, 2021-02-02 This book constitutes the proceedings of the 4th International Workshop on Chatbot Research and Design CONVERSATIONS 2020 which was held during November 23-24 2020 hosted by the University of Amsterdam. The conference was planned to take place in Amsterdam, The Netherlands but changed to an online format due to the COVID-19 pandemic. The 14 papers included in this volume were carefully reviewed and selected from a total of 36 submissions. The papers in the proceedings are structured in four topical groups: Chatbot UX and user perceptions, social and relational chatbots, chatbot applications, and chatbots for customer service. The papers provide new knowledge through empirical, theoretical, or design contributions.

Deep Learning for Social Media Data Analytics Tzung-Pei Hong, Leticia Serrano-Estrada, Akshati Saxena, Anupam Biswas, 2022-09-18 This edited book covers ongoing research in both theory and practical applications of using deep learning for social media data. Social networking platforms are overwhelmed by different contents and their huge amounts of data have enormous potential to influence business, politics, security, planning, and other social aspects. Recently, deep learning techniques have had many successful applications in the AI field. The research presented in this book emerges from the conviction that there is still much progress to be made toward exploiting deep learning in the context of social media data analytics. It includes fifteen chapters organized into four sections that report on original research in network structure analysis, social media text analysis, user behaviour analysis, and social media security analysis. This work could serve as a good reference for researchers as well as a compilation of innovative ideas and solutions for practitioners interested in applying deep learning techniques to social media data analytics.
