Must Know Ai Tools For Teachers Guide Usa:

Revolutionizing English Education Clarice M. Moran, 2024-04-30 Artificial Intelligence or AI has seemingly burst into public consciousness with sudden vigor Previously relinquished to computer science journals it erupted as the unrelenting topic of public media with most of the furor surrounding chatbots like ChatGPT Although many educators began worrying about the implications of AI in student learning and creative activity this book will demonstrate that AI can be harnessed as a source of inspiration and meaningful instruction With an emphasis on useful classroom strategies as well as a consideration of the ethics of AI this book seeks to start a conversation in this nascent area of research and practice The primary focus is on the use of AI in the secondary English classroom but educators in other disciplines will find plenty of ideas and information

Institutes of Higher Education (IHE) and Workforce Collaboration for Digital Literacy Nelms, Amanda, 2025-04-17 Technology is an ever evolving topic at the forefront of conversations in education For example the use of artificial intelligence AI has highlighted the need for further discussion on its use in advanced learning Within institutes of higher education IHEs students prepare for digital literacy and ever changing technology tools Due to the nature of this technological evolution IHEs and future employers often work quickly Further exploration may assist in collaborations and partnerships that streamline and strengthen the work related to increasing digital literacy Institutes of Higher Education IHE and Workforce Collaboration for Digital Literacy explores methodologies and strategies that highlight the collaboration between IHEs and the workforce It highlights cutting edge research on silo removal between IHEs and future employers pertaining to technology integration Covering topics such as educational silos technology access and university libraries this book is an excellent resource for educators business owners researchers scholars academicians and more

Integrating Technology in Literacy Instruction Jodi Pilgrim, Sheri Vasinda, Peggy S. Lisenbee, 2025-03-21 In the second edition this text has been updated to address changing literacies surrounding students and the continued importance of effective communication using technology tools in K 12 classrooms Technology has the power and potential to transform teaching and learning in classrooms and to promote active learning interaction and engagement through readily available tools and applications While both technologies and research in literacy education rapidly evolve this book presents lasting frameworks for teachers to effectively evaluate and implement digital tools to enhance classroom literacies and learning Through the lens of Universal Design for Learning UDL this text equips educators to develop inclusive learning environments that support the needs and desires of all literacy learners through the integration of technology and literacy instruction This text presents a range of current models and frameworks including SAMR RAT PICRAT T3 TPACK TIPC and EMSCI The new edition of this book has been updated to include Alignment with ISTE standards in each chapter Updates from the 2024 UDL Guidelines 3.0 Updates from the most recent 2024 National Educational Technology Plan Updated technology applications including AI and its impact Tools for teaching through remote and distance learning Each chapter includes prompts for reflection and

discussion to encourage readers to consider ways literacy and technology can enable teachers to become agents of change This book will be especially beneficial for pre service undergraduate and graduate teacher candidates as well as ISTE certified educators and those seeking certification

School Children and the Challenge of Managing AI

Technologies Emanuela Guarcello,Abele Longo,2024-06-14 This edited volume recognises the need to cultivate a critical and acute understanding of AI technologies amongst primary and elementary school children enabling them to meet the challenge of a human and ethically oriented management of AI technologies Focusing on school settings from both the national and international level to form comparative case studies chapters present a robust conceptual and foundational framework within a global context as the idea of AI and our relationship to it advances apace The book uses research garnered from interviews and observational data qualitative and quantitative research and theoretical findings gathered from single schools or institutions across the world Providing an innovative perspective in promoting the importance of a critical creative and ethical orientation based on aesthetic experiences the book focuses on development in areas like visual arts literature environmental education robotics photography and screen education movement and play Ultimately the book responds to an urgent and time sensitive call to provide guidance on AI to primary education researchers and will be of interest to academics scholars and researchers in the fields of primary and elementary education technology in education children s rights education and moral and values education more broadly

Inside Multi-Media Case Based Instruction Roger C. Schank,2012-11-12 The fourth in the Inside series this volume includes four theses completed under the editor s direction at the Institute for the Learning Sciences at Northwestern University This series bridges the gap between Schank s books introducing for a popular audience the theories behind his work in artificial intelligence AI and the many articles and books written by Schank and other AI researchers for their colleagues and students The series will be of interest to graduate students in AI and professionals in other academic fields who seek the retraining necessary to join the AI effort or to understand it at the professional level This volume elaborates the Case Based Teaching Architecture A central tenet of this architecture is the importance of acquiring cases and being able to retrieve and use those cases to solve new problems The theses address the problems of building case bases indexing large amounts of data contained within those case bases and retrieving information on a need to know basis They also reflect the work of researchers at the Institute to design tools that enable software programs to be built more effectively and efficiently
