### **The International Responsibility of States for AI-enabled Space Activities** Stefan-Michael Wedenig,2025-12-22

Artificial Intelligence AI has permeated our every day lives What once was solely a human task has now been taken over by AI May it be credit card approvals customer support financial transactions medical imaging or software development there is AI working behind the scenes Outer space historically always amongst the most developed domains has not remained untouched for long and space applications have started to increasingly rely on AI However this increase in use also leads to a myriad of legal issues particularly the issue of responsibility and liability under Article VI and Article VII of the Outer Space Treaty and the Liability Convention Our legal norms may they be domestic or international in nature are ultimately built around human behaviour and when applied to AI might not function Should damage caused by an AI enabled space object arise it proves difficult to assess the responsibility of the appropriate State party under Article VI of the Outer Space Treaty or the liability of the launching State While legal literature is primarily concerned with domestic legal issues arising from the use of AI an in depth analysis concerning State responsibility and liability for AI enabled space activities is absent Space legal literature strongly favours a view advocating for the creation of new hard law in form of new binding legal instruments or the amendment of existing law Suggestions de lege ferenda are often relied on by authors Given the inherent difficulty in creating new law or amend existing legal instruments this book proposes to look towards the lex lata and argues that the existing legal norms of State responsibility State liability and treaty law are sufficient to govern the responsibility of States for their AI enabled space activities The present research looks at these issues from a public international law perspective and proposes a solution within the lex lata

### **The Fourth Intelligence Revolution** Anthony Vinci,2025-10-28

A former senior intelligence officer reveals how espionage is being transformed by a new global intelligence race driven by AI and competition with China and how this impacts all of our lives The new global intelligence competition has brought espionage into our workplaces and our living rooms Adversaries like China Iran and Russia have realized that the human element is the weakest link in our industrial and political infrastructure As a result they target all of us stealing our financial data and medical records eavesdropping on our conversations and using platforms like TikTok and Hollywood movies to influence our opinions The Fourth Intelligence Revolution reveals how the undercover adventures of World War II the spy versus spy confrontations of the Cold War and the find fix and finish counterterrorism missions after 9 11 have given way to the most dangerous period of espionage yet This eye opening account exposes how intelligence now permeates every corner of society from economic espionage and genetic data gathering to information operations targeting children through AI chatbots even extending to reconnaissance on the far side of the moon Both a warning and a call to action The Fourth Intelligence Revolution suggests that we are all in essence becoming intelligence officers and that citizens have both the power and responsibility to reclaim intelligence to safeguard and strengthen our democracy

*Examining Federal Administration of the Safe Drinking Water Act in Flint, Michigan* United States. Congress. House. Committee on Oversight and Government Reform, 2017 AI, 2005 *The Mueller Report* Robert S. Mueller, Special Counsel's Office U.S. Department of Justice, Alan Dershowitz, 2019-04-19 NOW A NEW YORK TIMES WASHINGTON POST WALL STREET JOURNAL USA TODAY AND PUBLISHERS WEEKLY BESTSELLER

There has never been a more important political investigation than Robert S Mueller III s into President Donald Trump s possible collusion with Russia His momentous findings can be found here complete with The 300 pages of the historic report as released by the Justice Department An introduction by constitutional scholar eminent civil libertarian and New York Times bestselling author Alan Dershowitz The relevant portions of Title 28 of the Code of Federal Regulations the 1999 provisions written by former acting Solicitor General Neal Katyal which establish and regulate the powers of the special counsel Rod Rosenstein s 2016 order appointing Robert Mueller III as special counsel and outlining the scope of his investigation Attorney General William Barr s four page summary of the report as sent to Congress Barr s explanation of the four reasons for redacting the report and a key for identifying them in the color coded report The wait is over Robert Mueller a lifelong Republican has concluded his investigation and submitted its findings to Attorney General William Barr Barr has told Congress that Mueller found no proof of collusion between the Trump campaign and Russia and did not come to a conclusion on obstruction of justice neither concluding the president committed a crime nor exonerating him But Mueller s report was over 300 pages and Barr s summary was only four pages raising questions about the conclusions of a historic investigation Special Counsel Robert Mueller III s probe into Russian influence on the 2016 election of Donald Trump including links between the campaign and Russian interests obstruction of justice by President Trump and any other matters that may have arisen in the course of the investigation has been the focal point of American politics since its inception in May 2017 Democrats in the US House of Representatives hoped to use the report to begin impeachment proceedings with the support of those critical of the president Media tracked Mueller s every move and the investigation was subject to constant speculation by political pundits everywhere It resulted in the indictments of Michael Flynn Paul Manafort Roger Stone and

many others President Trump and his supporters affirmed that the investigation was a witch hunt and the product of a plot by the political establishment the deep state to delegitimize his presidency Mueller s findings at least according to Barr allowed the latter to claim victory But now thanks to a subpoena from House Judiciary Committee chairman Jerry Nadler for the full report a resolution from the House of Representatives to release the full report to the public though blocked in the Senate by Mitch McConnell and popular demand it s time for public to judge if that is true The Mueller investigation will join Watergate and the Mueller Report will join the 9 11 Commission Report the Warren Report and the Starr Report as one of the most important in history The Mueller Report is required reading for everyone with interest in American politics for every 2016 and 2020 voter and every American It s now available here as an affordable paperback featuring an introduction from eminent civil libertarian Harvard Law Professor Emeritus and New York Times bestselling author Alan Dershowitz who provides a constitutional civil law based commentary sorely needed in today s media landscape
