Behavior in Organizations Abraham B. Shani, James Brownlee Lau, 2005 Behavior in Organizations 8e by Shani and Lau is a paperback text that takes a hands-on experiential approach to organization behavior. The majority of the exercises, role playing, simulations, and cases were developed in and for management training workshops. The cases themselves represent different industries and organizations around the globe with diverse size, product, service, and cultures. Instructors appreciate the multiple interactive teaching methods for each teaching module. Experiential methods provide a powerful stimulus for learning, growth, and change by helping participants focus on their own behaviors and reactions as data. The text begins with structured, less personal exercises that are readily recognized as relevant to human effectiveness in organizational settings. Personal growth and self-understanding activities are introduced later in the text after students have had enough experience to become more comfortable and ready for them. **U.S. News & World Report**, 2008 1997
