America's Membership Libraries Richard Wendorf,2007 Long Before the Establishment of public libraries in America during the Colonial period and the early decades of the new Republic thousands of social or membership libraries served as the primary venues for the circulation of books This collection of sixteen essays represents the first attempt to provide through individual histories of the largest surviving membership libraries a composite portrait of this important movement in American library history Although they sport different names society library library society mercantile library mechanics institute athenaeum all of these institutions have played a significant role in the intellectual and cultural lives of their communities which range from Boston New York and Charleston to Cincinnati San Francisco and La Jolla Some continue to serve as the central library in their city whereas others resemble large independent research institutions Each chapter in this book is intended to stand alone and yet collectively these essays should suggest the evolution of a particular kind of American library during the past three centuries **BOOK JACKET** Corpus Approaches to Language in Social Media Matteo Di

Cristofaro,2023-08-18 This book showcases the unique possibilities of corpus linguistic methodologies in engaging with and analysing language data from social media surveying current approaches and offering guidelines and best practices for doing language analysis The book provides an overview of how language in social media has been approached by linguists and non linguists before delving into the identification of the datasets requirements needed to pursue investigations in social media and of the technical aspects of particular platforms that may influence the analysis such as emoticons retweets and metadata Sample Python code along with general guidelines for using it is provided to empower researchers to apply these techniques in their own work supported by actual examples from three real life case studies Di Cristofaro highlights the full potential of using these methodologies in analysing social media language data and the ways in which they might pave the way for future applications of data analysis and processing for corpus linguistics The book will be key reading for researchers in corpus linguistics and linguists and social scientists interested in data driven analysis of social media New Statesman ,2008

About Imaginary Borders Stefanie Dalvai,2020-12-15 Diploma Thesis from the year 2020 in the subject English

Language and Literature Studies Linguistics grade 1 University of Innsbruck language English abstract Othering is a language process which does not only occur in spoken language but also in written Nowadays such a negative portrayal and creation of the perfect other is often happening in a rather hidden and indirect manner This paper explores whether Donald J Trump indulged in the act of Othering in his Tweets and whether this happened in a direct or indirect way The findings lead to an understanding whether Othering is being accepted in politics or not What comes as a blessing has also its downsides as not only positive but also negative opinions are omnipresent on the internet This is due to the possibility to upload almost everything as not every website has a way to censor inappropriate content Furthermore having a filter for written or pictured hate crime does not prevent it from happening as it is not always straight forward and hateful messages can come in disguise An uncountable number of these more or less hidden hate crimes are a sort of Othering as people tend to put themselves in opposition to others to create a sense of solidarity with those who share sameness and to have some excuse to keep up power relationships With this it becomes clear that language itself in the case of this paper explicitly the written one is a powerful tool to exert authority and domination on others especially when used by people in power like politicians Therefore the question this paper tries to answer is how written discourse in the Tweets of Trump creates the feeling of separation and dominance that underlies the act of Othering and whether this reflects a direct or indirect and with this more subtle and normalized use of power discourse In this thesis only those people Trump constantly portrays as dangerous foreigners intruders therefore not Americans are included in the analysis by looking at how he structures his discourse around them These include Mexicans and Muslims both to be found under the umbrella term of illegal immigrants
