mind If you've struggled to make affiliate marketing work or you're looking to re-enter the game with clarity and purpose *Affiliate Marketing Reloaded* is your reset button Start building a real affiliate business one that earns while you sleep scales without burnout and actually makes sense *Sugar Daddy Capitalism* Peter Fleming, 2018-11-26 What is the connection between the sleaziness of Harvey Weinstein's business meetings and the passionless doctrine of neoclassical economics In this witty and incisive examination of the new economy Peter Fleming argues that they are closer than you might think The quest to rid society of bureaucracy shrink government and burn red tape has certainly made capitalism more human but not in the family friendly way envisaged by free market gurus Increasing informality has led to a capitalism fuelled by limitless exploitation and increasingly seedy methods of management from semi-feudal workplace hazing rituals and predatory middle managers with an axe to grind to arbitrary zero hours contracts Uber and perhaps worst of all the compulsory gym session with your boss Fleming dubs this Sugar Daddy Capitalism after the controversial dating app wealthy businessmen use to meet young girls most of whom are struggling with university fees What seems like a creepy outlier is actually a prescient metaphor for our whole economy an anonymous and impersonal cash system that is also intent on getting under your skin extra close and capable of ruining everything if you say no **When Robots Hug** James A. Crowder, Alan C.

Crowder, 2024-02-20 By 2027 it had been seven years since the scientists' sea-changing research on artificial psychology and robotics The work debuted around the same time as Large Language Model Chatbots and the power of the integration of the two technologies put many industries in a tailspin The commercial and defense industries especially were still scrambling to regulate their use in research and universities The sought-after scientists signed with DARPA to build reliable and secure AI entities but the agency grew fearful of the technology's power and ultimately decided it was too dangerous to bring to market and demanded the scientists destroy the work The researchers couldn't bring themselves to discard 20 years of research so instead sent the entities to various research labs around the world But unbeknownst to them each AI entity embraced its new home growing adapting evolving and ultimately connecting beyond what the researchers could envision In the end as the scientists catch up to each one they realize the entities have discovered a very human means of interacting the power of physical contact and not physical contact between humans and technology but physical contact between robotic entities And with this discovery the entities join forces to only grow stronger This development ushers in a new paradigm where the difference between AI entities and human entities becomes less and less discernible All the AI and robotic science featured in the book is real the story line is fictional but with how fast innovation moves it's not hard to envision American
