associated with a common methodological approach *Testo e Metodo* in Italian is a bold attempt to assemble research which was undertaken according to different theoretical frameworks. Scholars from Italy, Estonia and France explore the results of applying philological, historic, critical, philosophical, semiotic, geocritical and anthropological conceptual tools to literary texts. The common rationale of all the contributions is a critical attention to the conceptual arsenal and the epistemological limits that it imposes on the research with regard to specific texts. This self-analyzing attitude on the part of the researcher exposes the particular method to a revitalizing interplay with the analyzed texts. For scholars and teachers in the field of Italian literary studies, this book promotes innovative multidisciplinary perspectives for students of literature; it illustrates different ways of approaching literary texts and describes the current state of the related debates.
